ESG: SUSTAINABLE FINANCE

24 July 2026
09:00 to 12:00 CET

This course explores the intersection of Environmental, Social, and Governance (ESG) factors with sustainable finance, focusing on how ESG considerations are shaping the future of investment and financial markets. Participants will learn about the growing importance of sustainable finance in addressing global challenges such as climate change, social inequality, and corporate governance. The course will cover key topics such as ESG investment strategies, green bonds, sustainable financing models, and the regulatory landscape. Attendees will gain practical insights into how ESG factors can be integrated into financial decision-making to create long-term value and promote sustainable growth.
