DESIGNING A ROBUST BUSINESS RISK ASSESSMENT

5 October 2026
09:00 to 11:00 CET

This course has been tailored to provide attendees with a best practice approach in designing an organization's business risk assessment. The course will explore how risk managers can apply an enterprise-wide risk management approach and transpose this into a business risk assessment, ensuring the organization's risk profile factors in all the risks which may impact its operations and achievement of objectives.
