# Going Public – An Introduction to Stock Exchange Listings

Course No 126

This course will provide an introduction to basic capital markets concepts and terminology, the fundamental considerations (and quid pro quo analysis) that any company offering securities to the public for the first time needs to keep in mind. Participants will be given a general understanding of the listing process, the various parties involved and all the relevant Maltese and EU legal and regulatory requirements that issuers must comply with, both prior to listing and on an ongoing basis. Practical examples will be provided throughout the course to better illustrate the issues being discussed.
