Transitioning from ISO27001:2013 to ISO27001:2022: Ensuring Cybersecurity Compliance in the Digital Age

Course No 171

This new course will give an overview of ISO 27001, its importance in information security management, and its relevance in the digital age. It will highlight the key changes from ISO 27001:2013 to ISO 27001:2022 and explain the implications of the transition, and give a practical overview of the best practices to be used for the transitioning phase.

Supported by:
