REAL ESTATE VALUATION QUALITY AND REVIEWS

3, 6 October 2025
13:30 to 16:00 CET

This module will give a comprehensive overview of property valuations and reports, showing what a good quality and realistic valuation should assess, and explaining the methodology of creating a good quality property valuation. It will also address the common mistakes and errors commonly found in valuations and the importance of having a good standard of valuation since this is often the basis of investment decisions.
