INVESTING ESSENTIALS: BUILDING A DIVERSIFIED PORTFOLIO

7, 8 October 2025
09:00 to 11:00 CET

This four-hour course is perfect for individuals seeking to enhance their investing expertise and build a well-rounded understanding of key investment concepts. Participants will gain practical insights into constructing a diversified portfolio tailored to their financial goals. Topics include an introduction to asset classes like stocks, bonds, and funds; the importance of diversification to minimize risk and maximize returns; and strategies for creating balanced portfolios. The course also explores the advantages of ETFs and index funds, diversification across geographies and sectors, and ways to avoid common investment pitfalls. Practical examples and virtual trading exercises will reinforce the concepts learned.
