Independent auditor's report	

Directors' report

The Directors present their report and the audited financial statements for the year ended 31 December 2020.

Principal activities

The principal activity of the Company, which is unchanged since last year, is to provide services of digital marketing, design and production.

Review of business

2020 Performance

2020 was an interesting year for many companies, especially for those operating within our industry. Although the COVID-19 pandemic brought about new challenges, it came with new opportunities and ideas. The Company worked very hard to ensure that first and foremost the needs of our clients were always our top priority. As the pandemic hit in March 2020, a significant number of our clients undertook a cost cutting exercise in an attempt to preserve their cash flows, and as a result, initially they stopped our services hence impacting our revenue generation capability. As this pressure eventually eased, and the pandemic lingered, clients began looking beyond the pandemic and into the future.

Our Team worked relentlessly to create opportunities locally and in the Middle East and North Africa ("MENA") Region. We changed strategy and rather than slowing down, we upped the pace and commenced working faster, rationally, and more strategically. The hard work paid off with no team members being laid off, and the Company registering a similar performance to 2019.

2020 has accelerated the digital world, particularly because the pandemic has fundamentally altered the way, as well as the place from which business is conducted. Companies have come to realise that they either adapt or are left behind and eventually close shop. This newfound philosophy among most of our clients has accelerated our business development in 2021 with the Company recruiting new talent and firming up its service offering.

2021 Outlook

The Company has set ambitious targets for 2021 and has started the year on a very positive note. Whilst targets are ambitious, with revenue expecting to total $\in 1.7$ million during 2021, the first two months performance confirmed that the Company's results are in line with budget. Furthermore, the Company shall be expanding its workforce in order to achieve this growth, and is currently undergoing a robust recruitment campaign, with seven new team members joining the Company in these first three months of the year.

Naturally, this is not being done in a vacuum, and the Directors continue to monitor the situation constantly so as to be proactive and mitigate the impact brought about by the pandemic. Furthermore, the directors will continue to take appropriate action, as already has been the case, and ensure that Company sustains these current conditions.

Financial results

The Company's revenue and other income for the year amounted to €1,180,916 (2019: €1,172,862) representing a very minor increase of less than 1%, whilst the operating profit for the year amounted to €165,736 (2019: €173,719), representing a slight decrease of nearly 5%. The profit before tax for the year amounted to €96,806 (2019: €97,108) also representing a very slight decrease of less than 1% over the prior year figure.

During 2020, the Company managed to retain its revenue base even though the pandemic severely affected the Company's ability to generate new revenue leads during the first half of the year. This result flowed down to the bottom line as the Company managed to retain its cost base and avoid unnecessary outlays.

Depreciation and amortisation for the year amounted to €24,791 (2019: €20,816) and finance costs were €68,930 (2019: €66,113). The main reason for the increase in both depreciation and finance costs related to an addition to the right-of-use asset, during 2020 of €25,618.

Directors' report - continued

Finance costs for 2020 and 2019 mainly include the bond interest payable.

The Company's total asset base stands at €1,762,460 (2019: €1,511,425), which represents an increase of approximately 17% and which is mainly a result of:

- An increase of approximately €165,000 in the Company's bank balance;
- A substantial increase in investments in subsidiaries of €44,760, which relates to the increase in it is investment in Onest Market Intelligence Limited;
- An increase of €40,950 in trade and other receivables, which mainly relates to an increase in loans granted to the Company's subsidiaries.

Total non-current liabilities amounted to $\in 1,090,022$ (2019: $\in 1,075,523$) and mainly represent the bond issue of $\in 1,000,000$ less bond issue costs.

Trade and other payables for the year amounted to €429,9356 (2019: €226,190).

Principal risks and uncertainties

The Company is exposed to risks inherent to its operation and can be summarised as follows:

1. Strategy risk

Risk management falls under the responsibility of the Board of Directors. The Board is continuously analysing its risk management strategy to ensure that risk is adequately identified and managed. The Audit Committee regularly reviews the risk profile adopted by the Board of Directors.

2. Operational risks

The Company's revenue is mainly derived from services of digital marketing, design and production. Demand for such services is closely linked to the performance of the economic outlook, both locally and on a global scale. The Company's management is actively involved in spreading its client base to eliminate dependence on a particular industry or territory.

3. Legislative risks

The Company is governed by a number of laws and regulations. Failure to comply could have financial and reputational implications and could materially affect the Company's ability to operate. The Company has embedded operating policies and procedures to ensure compliance with existing legislation.

Financial risk management

Information relating to the Company's financial risk management is disclosed in Note 2 to the financial statements.

Results, dividends and reserves

The financial results are set out in the statement of comprehensive income on page 20. The Directors distributed a net dividend of €62,611 during 2020 (2019: €nil). Retained earnings carried forward at the end of the financial reporting period amounted to €189,862 (2019: €180,449).

Directors' report - continued

Directors

The Directors of the Company who held office during the year were:

Dr. Lawrence Gonzi – Chairman Mr. Benjamin Borg Mr. Zachary Borg Mr. Julian Mamo Mr. Christopher Mifsud

The Board meets on a regular basis to discuss performance, position and other matters. The Company's Articles of Association do not require any director to retire.

Statement of Directors' responsibilities for the financial statements

The Directors are required by the Companies Act, 1995 to prepare financial statements which give a true and fair view of the state of affairs of the Company as at the end of each reporting period and of the profit or loss for that period.

In preparing the financial statements, the Directors are responsible for:

- ensuring that the financial statements have been drawn up in accordance with International Financial Reporting Standards as adopted by the EU;
- selecting and applying appropriate accounting policies;
- making accounting estimates that are reasonable in the circumstances;
- ensuring that the financial statements are prepared on the going concern basis unless it is inappropriate to presume that the Company will continue in business as a going concern.

The Directors are also responsible for designing, implementing and maintaining internal control relevant to the preparation and the fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error, and that comply with the Companies Act, 1995. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The financial statements of Anchovy Studios plc. for the year ended 31 December 2020 are included in the Annual Report 2020, which is published in hard-copy printed form and may be made available on the Company's website. The Directors are responsible for the maintenance and integrity of the Annual Report on the website in view of their responsibility for the controls over, and the security of, the website. Access to information published on the Company's website is available in other countries and jurisdictions, where legislation governing the preparation and dissemination of financial statements may differ from requirements or practice in Malta.

Auditors

Mazars Malta have indicated their willingness to continue in office and a resolution for their re-appointment will be proposed at the Annual General Meeting.

Directors' report - continued

Statement by the Directors on the financial statements and other Information included in the annual report

The Directors declare that to the best of their knowledge, the financial statements included in the Annual Report are prepared in accordance with the requirements of International Financial Reporting Standards as adopted by the EU and give a true and fair view of the assets, liabilities, financial position and profit of the Company and that this report includes a fair review of the development and performance of the business and position of the Company, together with a description of the principal risks and uncertainties that it faces.

On behalf of the Board

Corporate Governance - Statement of compliance

Preliminary

The Prospect MTF Rules issued by the Malta Stock Exchange require qualifying companies admitted to the listing venue to observe relevant corporate governance standards, in this case the Code of Principles of Good Corporate Governance (the "Code").

Although the adoption of the Code is not obligatory, companies are required by Prospects MTF Rules to include, in their Annual Report, a Directors' Statement of Compliance which deals with the extent to which the Company has adopted the Code, accompanied by a report of the auditors thereon.

Part 1: Compliance with the Code

The Board of Directors (the Board") of Company believe in the adoption of the Code and has endorsed it except where the size and/or particular circumstances of the Company are deemed by the Board not to warrant the implementation of specific recommendations. Accordingly, some of the provisions of the Code are not applicable whilst others are applicable to a limited extent.

Principle 1 and 4: The Board

The Board of Directors of the Company is responsible for the overall long-term direction and strategy of the Company, assessing and evaluating the performance of the Company's executive functionaries, ascertaining that control systems suitable to the Company are implemented, that financial reporting is carried out to the highest attainable standards and to ascertain that the Company maintains open communication channels with the market and stakeholders. The Board is also responsible for decisions relating to the redemption of the Bond, and for monitoring that its operations are in conformity with the Company Admission Document and all relevant rules and regulations.

Clear internal and external reporting lines are established with a view to ensuring that the Board can properly discharge its obligation to take decisions in the best interests of the Company. In fact, throughout the year under review, the Board has provided the necessary leadership in the overall direction of the Company and the administration of its resources to enhance the prosperity of the business over time, and therefore the value of the shareholders' investment.

The Company has a structure that ensures a mix of executive and non-executive directors and that enables the Board to have direct information about the Company's performance and business activities. The Directors, individually and collectively, are of the appropriate calibre, with the necessary skills and experience to contribute effectively to the decision-making process. All directors have access to independent professional advice, at the expense of the Company, should they so require.

The Directors have determined the Company's strategic aims and organisational structure and always ensure that the Company has the appropriate mix of financial and human resources to meet its objectives.

Corporate Governance - Statement of compliance - continued

Part 1: Compliance with the Code (continued)

Principle 2: The Company's Chairman and Chief Executive

Principle 2: Chairman and Chief Executive

Due to its lean operating structure and the nature of its current business, the Company does not employ a Chief Executive Officer (CEO). Despite this, the Company feels that its current organisational structure is appropriate for the size of the Company's operation. The board of directors is responsible for the Management of the Company. The day-to-day management of the Company is vested with the Executive Directors of the Company. The Chairman is responsible to lead the Board and set its agenda and also ensures that the Directors of the Board receive precise, timely and objective information so that they can take sound decisions and effectively monitor the performance of the Company.

Principle 3: Composition of the Board

The Board is composed of two executive directors and three non-executive directors. The Board considers that the size of the Board, whilst not being too large as to be unwieldy, is appropriate, taking into account the size of the Company its operations, its business risks and key performance indicators. The combined and varied knowledge, experience and skills of the Board members provide a balance of competences that are required and add value to the proper functioning of the Board and gives direction to the Company.

The board is composed as follows:

Benjamin Borg – Executive Director Zachary Borg – Executive Director Christopher Mifsud – Non Executive Director Dr Lawrence Gonzi – Chairman and Non Executive Director Julian Mamo – Non Executive Director

The Company has a majority of Non-Executive Directors on the Board. The non-executive directors, Dr Lawrence Gonzi and Mr Julian Mamo are independent within the meaning provided by the Code. None of the Independent Non-Executive Directors:

- a) are or have been employed in any capacity by the Company;
- b) have, or had within the last three years, a significant business relationship with the Company;
- c) have received or receive significant additional remuneration from the Company;
- d) have close family ties with any of the executive members of the Board;
- e) have served on the Board for more than twelve consecutive years; or
- f) have been within the last three years an engagement partner or a member of the audit team of the present or past external auditors of the Company.

The process of appointment of Directors is transparent, is set out in the Company's Articles of Association and it is conducted during the Company's AGM where all the shareholders of the Company are entitled to participate in the voting process to elect the Board of Directors. Furthermore, in terms of the Company's Memorandum and Articles of Association, a Director is prohibited from voting on any contract or arrangement or any other proposal in which he has a material interest.

Corporate Governance - Statement of compliance - continued

Part 1: Compliance with the Code (continued)

Principle 5: Board Meetings

Board meetings concentrate mainly on strategy, operational performance and financial performance of the Company. The Chairperson ensures that all relevant items are set on the agenda and ensures that all board members partake in discussions of complex and contentious issues. Board members are notified of forthcoming meetings by the Company Secretary with the issue of an agenda and supporting reading materials, which are circulated well in advance of the meeting. After each Board meeting and before the next, Board minutes that faithfully record attendance, key issues and decisions are sent to the directors.

The Board aims to meet a minimum of four times every calendar year. It is currently composed of five individuals, with a majority of non-executive directors and two of whom are completely independent of the Company or any other related companies. The Board met five times during the period under review. The number of board meetings attended by directors for the year under review is as follows:

[five times]
[five times]
[five times]
[five times]
[five times]

Board meetings are attended by Grant Thornton Limited, the Corporate Advisors of the Company, the Company Secretary and Mint Finance, the Company's financial advisors. The Company ensures that sufficient information is provided to the attendees to effectively contribute during meetings of the board, and to take informed decisions on the manner in which the Company's affairs are being administered.

Principle 6: Information and Professional Development

On joining the Board, a Director is provided with briefings by the Executive Directors on the activities of the Company. From time to time, the Executive Directors may meet other Board members or organise information briefing sessions to ensure that the Directors are made aware of the general business environment and the Board's expectations, to ensure that it provides directors with relevant information to enable them to effectively contribute to board decisions. Consequently, each director is made aware of the Company's on-going obligations in terms of the Companies Act, the Prospects MTF Rules and other relevant legislation.

Corporate Governance – Statement of compliance - continued

Part 1: Compliance with the Code (continued)

Principle 8: Committees

Audit Committee

The Audit Committee's primary objective is to assist the board in fulfilling its oversight responsibilities over the financial reporting processes, financial policies and internal control structure. The Audit Committee is a sub-committee of the Board and is directly responsible and accountable to the Board.

The members of the Audit Committee have discussed various matters during the meetings held in 2020 and have formally set out the Terms of Reference of the Audit Committee. The purpose of the Committee is to set parameters of its remit as well as the basis for the process that it is required to comply with, such that it protect the interest of the Company's share and bond holders and assist the directors in conducting their role effectively. The Audit Committee also monitors the financial reporting process, the effectiveness of internal control and the audit of the annual financial statements. Additionally, it is responsible for monitoring the performance of the trade debtors of the Company, to ensure that budgets are achieved and if not that corrective action is taken as necessary. It also scrutinises and supervises related party transactions for materiality and ensures that these are carried out on an arm's length basis.

The Malta Stock Exchange reviewed the Audit Committee's Terms of Reference as part of the admission process with respect to the Bonds issued by the Company.

During the financial period under review, the Audit Committee met five times. The Audit Committee is composed of a mixture of executive and non-executive directors as follows:

Executive Director

Zachary Borg

Non Executive Director

Julian Mamo (Chairman of the Audit Committee) Dr Lawrence Gonzi

The Board considers the Chairman of the Audit Committee to be independent and competent in financial knowledge.

Internal Control

While the Board is ultimately responsible for the Company's system of internal controls and for reviewing its effectiveness, the authority to determine day-to-daynon-material operational aspects that fall within the ordinary course are delegated to the Executive Directors.

Controls are designed to manage risk, to achieve business objectives and to provide reasonable assurance against normal business risks.

Through the Audit Committee, the Board reviews the effectiveness of the Company's system of internal controls.

The key features of the Company's system of internal control are as follows:

Organisation

The Company operates through the Executive Directors with clear reporting lines and delegation of powers.

Corporate Governance - Statement of compliance - continued

Part 1: Compliance with the Code (continued)

Principle 8: Committees (continued)

Control Environment

The Company is committed to strong standards of business conduct and seeks to maintain these across all of its operations.

The Company has an appropriate organisational structure for planning, executing, controlling and monitoring business operations in order to achieve its objectives.

Risk Identification

The Executive Directors and Company management are responsible for the identification and evaluation of key risks applicable to their respective areas of business - this is sufficient, given the nature and scale of the Company's operations.

The Company has an appropriate organisational structure for planning, executing, controlling and monitoring business operations in order to achieve its objectives, given its size and the nature of its activities to date.

Principles 9: Relations with Shareholders and with the Market

The Company recognises the importance of keeping investors informed to ensure that they are able to make informed investment decisions. The Company communicates with the market by way of the Annual Report and Financial Statements, by publishing its results on a six-monthly basis during the year, and by way of Company announcements to the market in general when necessary.

These reports are also available on the Company's website which also contains information about the Company. The Company's website also contains an 'Investor relations' section which includes press releases and investor information sub-sections.

Principle 10: Institutional Shareholders

The Directors are of the view that this Principle is not applicable to the Company.

Corporate Governance – Statement of compliance - continued

Part 1: Compliance with the Code (continued)

Principle 11: Conflicts of Interest

Mr Zachary Borg and Mr Benjamin Borg are executive officers of the Company. Mr Zachary Borg and Mr Benjamin Borg have a direct beneficial interest in the share capital of the Company, and as such are susceptible to conflicts arising between the potentially diverging interests of the shareholders and the Company. All the Directors of the Company recognise their responsibility to act in the interest of the Company and its shareholders as a whole irrespective of who appointed them to serve on the Board. It is the practice of the Board that when a potential conflict of interest arises in connection with any transaction or other matter, the potential conflict of interest is declared so that steps may be taken to ensure that such items are appropriately dealt with. Directors who have a conflict of interest do not participate in discussions concerning such matters unless the Board find no objection to the presence of such Directors. The Directors are obliged to keep the Board advised, on an on-going basis, of any interest that could potentially conflict with that of the Company. In any event, Directors refrain from voting on the matters where conflicts of interest arise. There were no such matters in the year under review.

The Directors are informed of their obligations on dealing in securities of the Company within the parameters of the law and subsidiary legislation, as well as the Prospects MTF Rules.

The Audit Committee has the task to ensure that any potential conflicts of interest are resolved in the best interests of the Company. Furthermore, in accordance with the provisions of article 145 of the Companies Act (Cap. 386 of the Laws of Malta), every Director who is in any way, whether directly or indirectly, interested in a contract or proposed contract with the Company is under the duty to fully declare his interest in the relevant transaction to the Board at the first possible opportunity and he will not be entitled to vote on matters relating to the proposed transaction and only parties who do not have any conflict in considering the matter will participate in the consideration of the proposed transaction (unless the Board finds no objection to the presence of such Director with conflict of interest).

Principle 12: Corporate Social Responsibility

The Directors are committed to high standards of ethical conduct and to contribute to the development of the well-being of employees and their families as well as the local community and society at large.

Corporate Governance – Statement of compliance - continued

Part 2: Non-Compliance with the Code

Principle 7 and 8: Remuneration and Nomination Committees

Under the present circumstances the Company does not consider it necessary to appoint a Remuneration Committee and a Nomination Committee as decisions on these matters are more adequately taken by the Company's Board and at shareholders level.

Principle 9: Relations with Shareholders and with the Market

Currently there is no established mechanism disclosed in the Company's Memorandum and Articles of Association, as recommended in Code Provision 9(k), to trigger arbitration in the case of conflict between the minority shareholders and the controlling shareholders. The Board believes, taking into account the current shareholder profile, the measures currently available for shareholders, such as the right to ask questions, and the continuous dialogue with shareholders provide the necessary safeguards.

Approved by the Board of Directors on 6 April 2021 and signed on its behalf by:

Benjamin Borg Director

Notes to the financial statements

1. Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

1.1 Basis of preparation

These financial statements have been prepared in accordance with the requirements of International Financial Reporting Standards (IFRSs) as adopted by the EU and with the requirements of the Maltese Companies Act (Cap 386). The financial standalone statements have been prepared under the historical cost convention.

The preparation of financial statements in conformity with IFRSs as adopted by the EU requires the use of certain accounting estimates. It also requires the Directors to exercise their judgment in the process of applying the Company's accounting policies (see Note 3 - Critical accounting estimates and judgments).

1.1.1 Initial Application of an International Financial Reporting Standard

The Company has adopted the following new and amended IFRS and IFRIC interpretations as of 1 January 2020:

 Amendments to References to the Conceptual Framework in IFRS Standards – effective 1 January 2020

The revised Conceptual Framework includes: a new chapter on measurement; guidance on reporting financial performance; improved definitions and guidance—in particular the definition of an asset and a liability; and clarifications in important areas, such as the roles of stewardship, prudence and measurement uncertainty in financial reporting. The application of these amendments did not have a material effect on the Company's financial statements.

• Amendments to IAS 1 and IAS 8 Definition of Material - effective 1 January 2020

In October 2018, the IASB issued amendments to IAS 1 Financial Statement Presentation and IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors to clarify the definition of 'material' in the context of applying IFRS. As the concept of what is and is not material is crucial in preparing financial statements in accordance with IFRS, a change in the definition may fundamentally affect how preparers make judgments in preparing financial statements.

These amendments are a component of the IASB's 'Disclosure Initiative' project, which is intended to simplify financial statements and increase their usability.

The new definition changes the "bar" at which the definition is applied. The previous definition used the term "could" in the context of whether users are potentially affected, which has been interpreted broadly. The revised definition adjusts this to use the terminology "could reasonably be expected", which adds the element of reasonability, rather than any potential effect on users.

The revised definition also narrows the definition of those who may be affected from the previous term of "users" to "primary users", which further narrows the view of what may be material in a given circumstance.

1.1 Basis of preparation - continued

1.1.1 Initial Application of an International Financial Reporting Standard - continued

• Amendments to IAS 1 and IAS 8 Definition of Material - effective 1 January 2020 - continued

Finally, the revised definition adds the concept that obscuring information may also be relevant in determining whether an element is material to primary users. For example, disclosure of a significant subsequent event would generally receive more prominence in the order in which it is presented in financial statements than insignificant disclosures. The application of these amendments did not have a material effect on the Company's financial statements.

• Amendments to IFRS 9, IAS 39 and IFRS 7: Interest Rate Benchmark Reform - effective 1 January 2020

The IASB has issued amendments to IFRS 9, IAS 39 and IFRS 7 that provide certain reliefs in connection with interest rate benchmark reform. The reliefs relate to hedge accounting and have the effect that IBOR reform should not generally cause hedge accounting to terminate. However, any hedge ineffectiveness should continue to be recorded in the income statement. Given the pervasive nature of hedges involving IBOR-based contracts, the reliefs will affect companies in all industries.

The amendment requires disclosure of the nominal amount of hedging instruments to which the reliefs are applied, any significant assumptions or judgements made in applying the reliefs, and qualitative disclosures about how the entity is impacted by IBOR reform and is managing the transition process. The application of these amendments did not have a material effect on the Company's financial statements.

• Amendments to IFRS 3 Business Combinations - effective 1 January 2020

In October 2018, the International Accounting Standards Board (IASB or Board) issued amendments to the definition of a business in IFRS 3 Business Combinations. The amendments are intended to assist entities to determine whether a transaction should be accounted for as a business combination or as an asset acquisition. IFRS 3 continues to adopt a market participant's perspective to determine whether an acquired set of activities and assets is a business.

The amendments: clarify the minimum requirements for a business; remove the assessment of whether market participants are capable of replacing any missing elements; add guidance to help entities assess whether an acquired process is substantive; narrow the definitions of a business and of outputs; and introduce an optional fair value concentration test. The Board also added examples to illustrate the application of the guidance in IFRS 3 on the definition of a business. The application of these amendments did not have a material effect on the Company's financial statements.

Amendment to IFRS 16 Leases COVID-19 - Related Rent Concessions (issued on 28 May 2020) – effective 1 June 2020

The amendments introduce an optional practical expedient that simplifies how a lessee accounts for rent concessions that are a direct consequence of COVID-19. A lessee that applies the practical expedient is not required to assess whether eligible rent concessions are lease modifications, and accounts for them in accordance with other applicable guidance. The resulting accounting will depend on the details of the rent concession.

1.1 Basis of preparation - continued

1.1.1 Initial Application of an International Financial Reporting Standard - continued

Amendment to IFRS 16 Leases COVID-19 - Related Rent Concessions (issued on 28 May 2020) – effective 1 June 2020 - continued

The practical expedient will only apply if:

- the revised consideration is substantially the same or less than the original consideration;
- the reduction in lease payments relates to payments due on or before 30 June 2021; and
- no other substantive changes have been made to the terms of the lease.

Lessees applying the practical expedient are required to disclose:

- that fact, if they have applied the practical expedient to all eligible rent concessions and, if not, the nature of the contracts to which they have applied the practical expedient; and
- the amount recognised in profit or loss for the reporting period arising from application of the practical expedient.

No practical expedient is provided for lessors. Lessors are required to continue to assess if the rent concessions are lease modifications and account for them accordingly.

The amendment is effective for annual reporting periods beginning on or after 1 June 2020 with earlier application being permitted in order to allow application of the relief as soon as possible.

The application of these amendments did not have a material effect on the Company's financial statements.

1.1.2 Standards, interpretations and amendments issued by the International Accounting Standards Board (IASB) but not yet adopted by the European Union:

- IFRS 17 Insurance Contracts
- Amendments to IAS 1 Presentation of Financial Statements: Classification of Liabilities as Current or Non-current and Classification of Liabilities as Current or Non-current - Deferral of Effective Date
- Amendments to
 - IFRS 3 Business Combinations;
 - o IAS 16 Property, Plant and Equipment;
 - IAS 37 Provisions, Contingent Liabilities and Contingent Assets
 - Annual Improvements 2018-2020
- Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 Interest Rate Benchmark Reform Phase 2

The Directors are assessing the impact that the adoption of these Financial Reporting Standards will have in the financial statements of the Company in the period of initial application.

1.1 Basis of preparation - continued

1.1.3 Consolidation of subsidiaries

Consolidated financial statements have not been prepared for the group comprising the Company and its subsidiaries on the grounds that the Company is exempt from drawing up consolidated financial statements in terms of Section 173 (1) of the Companies Act, 1995. Accordingly, these financial statements present information about the Company as an individual undertaking and not about its group.

1.2 Foreign currency translation

(a) Functional and presentation currency

Items included in these financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The Euro is the Company's functional and presentation currency.

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

1.3 Property, plant, and equipment

All property, plant and equipment is initially recorded at historical cost and subsequently carried at historical cost less depreciation and impairment losses. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.

Depreciation on property, plant and equipment is calculated using the straight-line method to allocate their cost to their residual values over their estimated useful lives, as follows:

	%
Improvements to premises	10
Furniture and fittings	10
Computer and office equipment	25
Air conditioners	16.67

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Property, plant and equipment is reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount.

^/

1.3 Property, plant, and equipment - continued

The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Property, plant and equipment that suffered an impairment is reviewed for possible reversal of the impairment at the end of each reporting period.

Gains and losses on disposals are determined by comparing the proceeds with carrying amount and are recognised in profit or loss.

1.4 Investment in subsidiary

A subsidiary is an entity which is controlled by the Company. Control is the power to govern the financial and operating policies of an entity so as to obtain benefits form its activities.

An investment in subsidiary is initially measured at cost. After initial recognition, the investment in subsidiary is measured using the cost method, which is at cost less impairment. Under the cost method, cost is adjusted to reflect changes in consideration arising from contingent consideration amendments. Provisions for impairment are recorded where, in the opinion of the Directors there is an impairment in the value of the investment. Where there has been an impairment in the value of an investment, it is recognised as an expense in the period in which the diminution is identified. The results of subsidiaries are reflected in the Company's financial statements only to the extent of dividends receivable. On disposal of an investment, the difference between the net disposal proceeds and the carrying amount is charged or credited to profit or loss.

1.5 Investments in associates

Associates are all entities over which the Company has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting and are initially recognised at cost. The Company's investment in associates includes goodwill identified on acquisition, net of any accumulated impairment losses.

The Company's share of its associates' post-acquisition profits or losses is recognised in profit or loss, and its share of post-acquisition other comprehensive income is recognised in other comprehensive income. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. When the Company's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Company does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate.

Unrealised gains on transactions between the Company and its associates are eliminated to the extent of the Company's interest in the associates. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. The accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Company.

1.6 Financial Instruments

A financial asset or a financial liability is recognised on the Company's balance sheet when the Company becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially recognised at their fair value plus in the case of financial assets and financial liabilities not classified as held for trading and subsequently measured at fair value, transaction costs attributable to the acquisition or issue of the financial assets and financial liabilities.

Financial assets and financial liabilities are derecognised if and to the extent that, it is no longer probable that any future economic benefits associated with the item will flow to or from the entity.

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

A financial instrument, or its component parts, is classified as a financial liability, financial asset, or an equity instrument in accordance with the substance of the contractual arrangement rather than its legal form.

1.7 Trade and other receivables

Trade receivables comprise amounts due from customers for services performed in the ordinary course of business. If collection is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

1.8 Cash and cash equivalents

Cash and cash equivalents are carried in the statement of financial position at face value. For the purposes of the statement of cash flows, cash and cash equivalents includes cash in hand and deposits held with banks and the bank overdraft.

Subsequent to initial recognition, interest bearing bank overdrafts are carried at their face value due to their short-term maturities.

1.9 Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new ordinary shares are shown in equity as a deduction, net of tax, from the proceeds.

1.10 Borrowings

Borrowings are recognised initially at the fair value of proceeds received; net of transaction costs incurred. Borrowings are subsequently carried at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method. Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least twelve months after the end of the reporting period.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled, or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid is recognised in profit or loss as other income or finance costs.

1.11 Trade and other payables

Trade payables comprise obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Trade and other payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

1.12 Offsetting financial instruments

Financial assets and liabilities are offset, and the net amount reported in the statement of financial position when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

1.13 Current and deferred tax

The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively. Deferred tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, deferred tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred tax asset is realised, or the deferred tax liability is settled.

Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

1.14 Provisions

Provisions for legal claims are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense.

1.15 Revenue recognition

Revenue is measured based on the consideration specified in a contract with a customer arises from the provision of services (performance obligations) and is measured at the fair value of the consideration received or receivable for services provided in the normal course of business, net of value added tax, rebates and discounts, where applicable. Revenue is recognised when it is probable that future economic benefits will flow to the company and the amount of revenue and the associated costs can be measured reliably.

(a) Rendering of services

Revenue from services is generally recognised in the period the services are provided, based on the services performed to date as a percentage of the total services to be performed. Accordingly, revenue is recognised by reference to the stage of completion of the transaction under the percentage of completion method.

(b) Interest income

Interest income is recognised as the interest accrues using the effective interest method, unless collectability is in doubt.

1.16 Leases

Where the Company is the lessee

At the inception of a contract, the Company assess whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company uses the definition of a lease in IFRS 16.

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred, less any incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of the right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

1.16 Leases - continued

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate. Lease payments included in the measurement of the lease liability include fixed payments, variable lease payments that depend on an index or a rate and lease payments in an optional renewal period that the Company is reasonably certain to exercise an extension option

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes its assessment of whether it will exercise an extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Company presents right-of-use assets within non-current assets and lease liabilities within current and non-current liabilities accordingly in the statement of financial position.

1.17 Borrowing costs

All borrowing costs are expensed. Borrowing costs are recognised for all interest-bearing instruments on an accrual basis using the effective interest method. Interest costs include the effect of amortising any difference between initial net proceeds and redemption value in respect of interest-bearing borrowings.

1.18 Dividend distribution

Dividend distribution to the Company's shareholders is recognised as a liability in the Company's financial statements in the period in which the dividends are approved by the Company's shareholders.

1.19 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments has been identified as the Company's Board of Directors that makes strategic decisions. The Board of Directors considers the Company to be made up of one segment, that is to engage in digital marketing activities and provide related and ancillary services.

1.20 Government grants

Grants from the government are recognised at their fair value where there is reasonable assurance that the grant will be received, and the Company will comply with all attached conditions.

Government grants relating to costs are deferred and recognised in the profit or loss over the period necessary to match them with the costs that they are intended to compensate.

2. Financial risk management

2.1 Financial risk factors

The Company's activities potentially expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk and cash flow interest rate risk), credit risk and liquidity risk. The Company's overall risk management focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Company's financial performance. The Company did not make use of derivative financial instruments to hedge risk exposures during the current and preceding financial years. The Board provides principles for overall risk management, as well as policies covering risks referred to above and specific areas such as investment of excess liquidity.

(a) Market risk

(i) Foreign exchange risk

Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities which are denominated in a currency that is not the entity's functional currency. Foreign currency transactions arise when the Company enters into transactions denominated in a foreign currency. Foreign currency transactions mainly comprise transactions in US Dollars. The risk arising from foreign currency transactions is managed by regular monitoring of the relevant exchange rates. The Directors consider foreign exchange risk exposure to not be material and accordingly a sensitivity analysis disclosing how profit or loss and other comprehensive income would change as a result of a reasonable possible shift in foreign exchange rates, is not considered necessary.

(ii) Cash flow and fair value interest rate risk

The Company's significant instruments which are subject to fixed interest rates represent the bonds issued to the general public (Note 12). In this respect, the Company is exposed to fair value interest rate risk in view of the fixed interest nature of these instruments, which are however measured at amortised cost.

The Directors consider that the Company is not significantly exposed to cash flow interest rate risk since financial instruments subject to variable interest rates are not material. Management monitors the impact of changes in market interest rates on amounts reported in profit or loss in respect of these instruments and considers the potential impact on profit or loss of a defined interest rate shift that is reasonably possible at the end of the reporting period to be immaterial.

(b) Credit risk

Credit risk arises from cash and cash equivalents and credit exposures to customers, which include outstanding debtors and amounts receivable from related parties.

The Company has two types of financial assets that are subject to the expected credit loss model:

- Trade and other receivables;
- Cash and cash equivalents.

While cash and cash equivalents are also subject to the impairment requirements of IFRS 9, the identified impairment loss was immaterial.

The Company banks only with local financial institutions with high quality standing or rating. At 31 December 2020 and 31 December 2019, cash and cash equivalents are held with counterparties with a credit rating of BBB- (2019: BBB-) and are callable on demand. Management consider the probability of default to be close to zero as the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Company.

2. Financial risk management – continued

2.1 Financial risk factors - continued

(b) Credit risk – continued

The maximum credit exposure to credit risk at the reporting date in respect of the financial assets was as follows:

	Notes	At 31 December 2020 €	At 31 December 2019 €
Loans and receivable category: Trade and other receivables Cash and cash equivalents	8 9	545,802 1,036,304	513,473 870,738
		1,582,106	1,384,211

The maximum exposure to credit risk at the end of the reporting period in respect of the financial assets mentioned above is equivalent to their carrying amount as disclosed in the respective notes to the financial statements. The Company does not hold significant collateral as security in this respect.

The Company assesses the credit quality of its customers, taking into account financial position, past experience and other factors. It has policies in place to ensure that sales of services are affected with customers with an appropriate credit history. The Company's management monitors the performance of its trade and other receivables on a regular basis to identify expected credit losses, taking into account historical experience in collection of accounts receivable.

In measuring the expected credit losses on trade receivables, the expected loss rates are based on the payment profiles and the corresponding historical credit losses experienced within this period while also taking into consideration a forward-looking rate which was determined based on country risk. On that basis, the impairment provision as at 31 December 2020 was determined as follows for trade receivables:

	Current	30 to 60 days overdue	61 to 90 days overdue	91 to 120 days overdue	More than 120 days overdue	Total
31 December 2020 Expected loss rate	0.55%	0.81%	0.80%	0.77%	12 42%	
Gross carrying	136,590	44,340	33,650	14,303	85,729	314,613
amount	·		,			,
Impairment provision	758	360	270	110	10,650	12,148

2. Financial risk management - continued

2.1 Financial risk factors - continued

(b) Credit risk – continued

	Current	30 to 60 days overdue	61 to 90 days overdue	91 to 120 days overdue	More than 120 days overdue	Total
31 December 2019 Expected loss rate	0.84%	0.84%	0.78%	27.23%	6.42%	
Gross carrying amount	83,408	100,694	73,243	31,071	83,695	372,112
Impairment provision	700	846	572	8,461	5,376	15,956

The closing impairment provision for trade receivables as at 31 December 2020 reconciles to the opening impairment provisions as follows:

	At 31 December 2020 €	At 31 December 2019 €
Opening impairment provision as at 1 January under IFRS 9 Impairment release recognised in profit or loss during the year	15,956 (3,808)	19,985 (4,029)
31 December - closing impairment provision	12,148	15,956

The loss allowance in relation to the other debtors and amounts due from subsidiaries was not considered to be material.

(c) Liquidity risk

The Company is exposed to liquidity risk in relation to meeting future obligations associated with its financial liabilities, which comprise principally interest-bearing borrowings (Note 11) and trade and other payables (Note 13). Prudent liquidity risk management includes maintaining sufficient cash to ensure the availability of an adequate amount of funding to meet the Company's obligations.

Management monitors liquidity risk by reviewing expected cash flows and ensures that no additional financing facilities are expected to be required over the coming year. The Company's liquidity risk is actively managed taking cognisance of the matching of cash inflows and outflows arising from expected maturities of financial instruments, together with the Company's committed bank borrowing facilities and other financing that it can access to meet liquidity needs. In this respect management does not consider liquidity risk to the Company as significant taking into account the liquidity management process referred to above.

2. Financial risk management - continued

2.1 Financial risk factors - continued

(c) Liquidity risk – continued

The following table analyses the Company's financial liabilities into relevant maturity groupings based on the remaining period at 31 December 2020 and 2019 to the contractual maturity date. The amounts disclosed in the tables below are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

	Less than 1 year €	Between 1 and 2 years €	Between 2 and 5 years €	Over 5 years €	Total €
31 December 2020					
Bonds	55,000	55,000	165,000	1,080,616	1,355,616
Bank overdraft Trade and other	4,077	-	-	-	4,077
payables	412,435	-	-	-	412,435
Dividends payable	17,500	-	-		- 17,500
Total	489,012	55,000	165,000	1,080,616	1,789,628
31 December 2019					
Bonds	55,000	55,000	165,000	1,135,616	1,410,616
Bank overdraft Trade and other	10,309	-	-	-	10,309
payables	226,190	-	-	-	226,190
Total	291,499	55,000	165,000	1,135,616	1,647,115

With respect to the maturity of the Company's financial liabilities as at 31 December 2020 and 31 December 2019, the Directors disclose that the Company's trade and other payables are entirely repayable within one year from the end of the respective reporting period and bank overdraft is repayable on demand.

2.2 Fair value estimation

The fair value information of the Company's non-current interest-bearing borrowings is disclosed in Note 11.

At 31 December 2020 and 2019, the carrying amounts of cash at bank, receivables, short term borrowings, payables and accrued expenses reflected in the financial statements are reasonable estimates of fair value in view of the nature of these instruments or the relatively short period of time between the origination of the instruments and their expected realisation.

2. Financial risk management - continued

2.3 Capital risk management

The Company's objectives when managing capital are:

- to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders;
- to maintain an optimal capital structure to reduce the cost of capital; and
- to comply with requirements of the Admission document issued in relation to the 5.5% 2027 bonds.

The Board's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence to sustain future development of business. The Board of Directors monitors the return on capital, which the Company defines as the results for the year divided by total equity. The Board of Directors also monitors the level of dividends to ordinary shareholders.

In view of the nature of the Company's activities and the extent of borrowings or debt, the capital level at the end of the reporting period determined by reference to the financial statements is deemed adequate by the Directors.

The Company's policy for managing capital has remained unchanged from the prior year.

3. Critical accounting estimates and judgments

Estimates and judgments are continually evaluated and based on historical experience and other factors including expectations of future events that are believed to be reasonable under the circumstances. The estimates and assumptions that have a significant risk of affecting the reported amount of assets and liabilities within the next financial year are discussed below.

Impairment of financial assets

The loss allowances for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period. Details of the key assumptions and inputs used are disclosed in note 2.

4. Property, plant and equipment

	Improvement to premises €	Furniture & fittings €	Computer and office equipment c €	Air onditioners €	Total €

Net book amount	-	-

On 31 December 2019, the Company transferred its intangible assets for the price of \in 81,376.71, which represented the net book value of the assets as at that date, to its fully owned subsidiary, Ginger Media Ltd ("the Transferee"). As a result of the said transfer, the Transferee accepted to become to outright owner of the assets, consisting of domain names and ancillary assets.

Carrying amount	67	67

6. Investment in associates - continued

The associate at 31 December 2020 whose results and financial position affected the figures of the Company are shown below:

	Registered office	Percentage and class of shares held	Nature of business
TaaableTechnologies Ltd	SOHO Office Hotel, Edge Water Business Centre, Elia Zammit Street St. Julians, STJ 3150, Malta	28% Ordinary shares (2018: 28%)	Online restaurant booking portal

The associates are not deemed material to the Company taking cognisance of the Company's financial position. Accordingly, the disclosures emanating from IFRS12 'Disclosures of interests in other entities' were not deemed necessary for the user's understanding of the financial results and financial position of the Company. The Company's share of the results of the associates and its share of the assets and liabilities are not deemed material for the purposes of disclosure.

On 30th December 2019, TaaableTechnologies Ltd was placed into liquidation and is expected to be struck off from the Malta Business Register on the 19th May 2021.

7. Investment in subsidiary

	At 31 December 2020 €	At 31 December 2019 €
Year end 31 December Opening cost and carrying amount Additions	480 44,760	240 240
Closing cost and carrying amount	45,240	480

The additions during the current financial year represent the Company's acquisition of additional shares in Onest Market Intelligence Limited, mainly by means of a capitalisation of loans.

On 3 December 2020, Onest Market Intelligence Limited allotted 43,800 Ordinary A Shares to the Company and 30,000 Ordinary B Shares to another shareholder. As a result, the Company's share was diluted to 60% (previously 100% ownership).

In addition to the above, the Company's initial 1,200 Ordinary A share were fully paid up (previously only 20% paid up).

7. Investment in subsidiary - continued

The subsidiaries at 31 December 2020 are shown below:

	Registered office	Percentage and class of shares held	Nature of business
Onest Market Intelligence Limited	682, High Street, Hamrun, Malta	60% Ordinary Shares (2019: 100%)	Provision of market Research and data consultancy services
Ginger Media Ltd	682, High Street, Hamrun, Malta	100% Ordinary Shares (2019: 100%)	Affiliate marketing

As at 31 December 2020, the subsidiary's net assets/liabilities and net profits/losses for the financial year then ended amounted to:

Onest Market Intelligence Limited – Net Liabilities €8,292 and Net Losses €37,816.

Ginger Media Limited – Net Liabilities €33,490 and Net Losses of €33,090.

8. Trade and other receivables

	At 31 December 2020 €	At 31 December 2019 €
Current		
Trade receivables	302,181	356,155
Other debtors	11,584	2,062
Amounts due from Onest Market Intelligence Ltd	94,604	55,904
Amounts due from Ginger Media Ltd	99,052	81,138
Prepayments and accrued income	47,002	18,214
	554,423	513,473

Trade receivables above are disclosed net of provisions for impairment for doubtful debts of €12,148 (2019: €15,956).

As at 31 December 2020, loans due from subsidiaries are disclosed net of an impairment of Nil (2019: €Nil).

9. Cash and cash equivalents

For the purposes of the statement of cash flows, the year-end cash and cash equivalents comprise the following:

	At 31 December 2020 €	At 31 December 2019 €
Cash at bank and in hand Bank overdraft (Note 11)	1,036,304 (4,077)	870,738 (10,309)
	1,032,227	860,429

The company has unutilised banking facilities amounting to €300,000

10. Share capital

	At 31 December 2020 €	At 31 December 2019 €
Authorised 453,000 Ordinary shares of €1 each 34,780 Ordinary 'A' shares of €1 each 12,220 Ordinary 'B' shares of €1 each	453,000 34,780 12,220	453,000 34,780 12,220
	500,000	500,000
Issued 34,780 Ordinary 'A' shares of €1 each – 25% paid up 12,220 Ordinary 'B' shares of €1 each - (312 100% paid up and 11,908 25% paid up)	8,695 3,289	8,695 3,289
	11,984	11,984

The holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at meetings of the Company. All shares rank equally with regard to the Company's residual assets.

During 2017, for the Company's listing requirements, the Company's authorised share capital was increased from 1,200 ordinary shares of €1 each to 500,000 ordinary shares of €1 each. The Company's issued share capital increased from 1,200 ordinary shares of €1 each (888 ordinary shares of €1 each 20% paid up and 312 ordinary shares of €1 fully paid up) to 47,000 ordinary shares of €1 each (46,688 ordinary shares of €1 each 25% paid up and 312 ordinary shares of €1 each fully paid up).

11. Borrowings

	At 31 December 2020 €	At 31 December 2019 €
Current Bank overdraft	4,077	10,309
Non-current 10,000 5.5% unsecured bonds 2027	979,893	976,735

By virtue of the Admission document dated 10 May 2017, the Company issued for subscription by the general public 10,000 unsecured bonds for an amount of \in 1,000,000. The bonds have a nominal value of \in 100 per bond and have been issued at par.

The bonds are subject to a fixed Interest rate of 5.5% per annum payable annually in arrears on 19 June of each year. All bonds are redeemable at par ($\in 100$ for each bond) on 19 June 2027.

The proceeds from the bond issue are to be used for the Company's general commercial purposes, which will include the following:

- to expand into new markets;
- diversification of offering into new, ancillary areas such as affiliate marketing;
- investing in IT systems and infrastructure;
- strengthening the organisation's capacity and depth, primarily by lateral recruitment within the technology, product development and marketing and sales spaces.

The bonds have been admitted on Prospects MTF, a multilateral trading facility (MTF) operated by the Malta Stock Exchange (MSE). The quoted market price of the bonds at 31 December 2020 was €102.80 (2019: €102.50) which in the opinion of the Directors fairly represented the fair value of these financial liabilities. The fair value estimate in this respect is deemed Level 1 of the fair value measurement hierarchy as it constitutes a quoted price in an active market.

The bonds are measured at the amount of net proceeds adjusted for the amortisation of the difference between net proceeds and the redemption value of the bonds using the effective interest method as follows:

5.5% unsecured bonds 2027	At 31 December 2020 €	At 31 December 2019 €
Original face value of bonds issued	1,000,000	1,000,000
Gross amount of bond issue costs	(31,593)	(31,593)
Amortisation of gross amount of bond issue costs:		
Amortisation charge for the year (Note 18)	3,159	3,159
Accumulated amortisation at end of year	11,486	8,327
Unamortised bond issue costs	(20,107)	(23,266)
Amortised cost and closing carrying amount	979,893	976,735

The Company's banking facilities as at 31 December 2020 amounted to $\leq 10,000$ (2019 $\leq 10,000$). Such facilities are mainly secured by guarantees from the Company's Directors. As at 31 December 2020, the bank overdraft is subject to a variable rate of interest of 5.65 % (2019: 5.65%).

12. Deferred tax

Deferred income taxes are calculated on temporary differences under the liability method and are measured at the tax rates that are expected to apply to the period when the asset is realised, or the liability is settled based on tax rates (and tax laws) that have been enacted by the end of the reporting period. The principal tax rate used is 35% (2019: 35%).

The recognised deferred tax assets and liabilities are expected to be recovered or settled principally after more than twelve months.

At the end of the reporting period the Company had the following unutilised tax credits and temporary differences:

Arises on:	2019 EUR	Movement for the year EUR	2020 EUR
Provisions on receivables Accelerated depreciation Right of use asset	(5,585) 1,207 (7,461)	1,333 195 (1,474)	(4,252) 1,402 (8,935)
	(11,839)	54	(11,785)

The deferred tax asset arising from temporary differences has not been reflected in these financial statements.

13. Trade and other payables

	At 31 December 2020 €	At 31 December 2019 €
Trade payables	58,996	49,978
Other payables	78,362	28,723
Indirect taxation	49,973	40,958
Accrued bond interest payable	29,735	29,267
Other accruals	17,500	37,000
Dividends Payable	17,500	-
Deferred income	177,870	40,264
	429,936	226,190

14. Revenue

Revenue is all derived from the provision of digital marketing activities and ancillary services.

15. Employee benefit expense

	2020 €	2019 €
Wages and salaries, including Directors' remuneration Social security costs	569,988 34,758	628,803 41,215
Less: employee costs capitalised as part of website development Less: COVID wage supplement received	604,746 - (29,267)	670,018 (18,024) -
	575,479	651,994

Average number of persons employed during the year was 22 (2019: 24).

Included above are Directors' salaries and other emoluments amounting to €166,896 (2019: €151,025).

16. Expenses by nature

	2020 €	2019 €
Media buying, software and platform expenses Legal and other professional fees Property operating lease rentals payable Movements in provision for impairment of shareholder loan Other expenses	114,855 47,299 - 256,564	93,510 50,258 3,750 - 182,844
Total other operating expenses	418,718	330,362

Auditor's fees

Fees charged by the auditor for services rendered during the financial periods ended 31 December 2020 relate to the following:

Non- audit services includes fees relating to the interim review

	2020 €	2019 €
Audit fees Non – audit services	7,000 1,500	7,000 1,500
	8,500	8,500

17. Finance costs

Cash generated from operations	335,820	201,086

22. Operating leases

Where the Company is the lessee

On 1 January 2019, the Group adopted IFRS 16 Leases using the modified retrospective approach, with no restatement of comparative information and an immaterial adjustment of EUR 17,353 to opening retained earnings recorded upon transition. Leases recognized in relation to Property are for a period of 13 years expiring on 31 December 2028. Right-of-use assets and lease liabilities have been recognised as separate line items in the statement of financial position. Lease liabilities were measured at the present value of the remaining lease payments, discounted using the incremental borrowing rate as of 1 January 2019. The incremental borrowing rate reflects the rate of interest that the company would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. To determine this rate, the company obtained information from its bank for the particular purpose.

22. Operating leases – continued

Amounts recognised in the statement of financial position

	2020 €	2019 €
Right of use assets Cost		
Buildings	120,613	94,995
	120,613	94,995

Buildings	· · · ·	· · · · · · · · · · · · · · · · · · ·
	24,313	10,555
Net Book Value		
Buildings	96,300	84,440
	96,300	84,440

Additions to the right-of-use asset during the 2020 financial year were €25,618.

Lease Liabilities	2020 €	2019 €
Current Non-current	11,700 110,129	6,970 98,788
	121,829	105,758

<u>The statement of profit or loss and other comprehensive income shows the following relating to leases</u>

	2020 €	2019 €
Depreciation on right of use assets		
Buildings	(13,758)	(10,555)
	(13,758)	(10,555)
	2020 €	2019 €
Interest expense (included in finance cost) Expenses relating to leases of low value assets	(6,853) -	(6,210) (3,600)
-	(6,853)	(9,810)

The total cash outflow for leases in 2020 was €16,400 (2019: €12,800).

23. Related parties

The Company's Directors consider the subsidiary and associate of the Company (Note 6 and 7), all entities owned or controlled by common shareholders and the Company's key management personnel to be the principal related parties of the Company. Transactions with these related parties would typically relate to the selling of digital marketing services in the ordinary course of business. Except for transactions disclosed or referred to previously in these financial statements, the operating transactions with related parties that have a material effect on the Company's results and financial position are disclosed below:

	2019 €	2019 €
Sales - provision of digital marketing services		
Subsidiaries Other related party	42,822 141,981	- 181,906
	184,803	181,906

Year end balances with related parties, arising principally from the trading transactions referred to above are disclosed below:

	At 31 December 2020 €	At 31 December 2019 €
Amounts owed by associate (stated net of provisions for impairment)	-	10,433
Amounts owed by subsidiaries	200,736	137,282
Amounts owed by related parties (stated net of provisions for impairment)	42,252	71,037
Amounts owed to shareholders	(17,500)	-
	225,488	218,752

All balances with related parties are unsecured, interest free and repayable on demand. No guarantees have been given or have been received.

26. Statutory information

Anchovy Studios plc is a public limited liability company and is incorporated in Malta.

27. Subsequent events

On 28th February 2021, the Company announced that it concluded a Standard Articles of Association Agreement to incorporate Anchovy Digital Ltd under the jurisdiction of the United Arab Emirates. The Company holds 60% of the shares in Anchovy Digital Ltd.

Independent auditor's report

To the Shareholders of Anchovy Studios plc

Report on the Audit of the Financial Statements

We have audited the financial statements of Anchovy Studios plc (the Company), set out on pages 12 to 41, which comprise the statement of financial position as at 31 December, 2020 and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

Opinion

In our opinion, the accompanying financial statements present fairly, in all material respects, (or give a true and fair view of) the financial position of the Company as at 31 December 2020, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards as adopted by the EU (EU IFRSs) and have been prepared in accordance with the requirements of the Companies Act (Cap. 386). The audit opinion is consistent with the additional report to the audit committee referred to in the Audit Regulation.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in accordance with the Accountancy Profession (Code of Ethics for Warrant Holders) Directive issued in terms of the Accountancy Profession Act (Cap. 281) in Malta, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We also confirm we have not provided any of the prohibited non-audit services referred to in those standards. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matter

A key audit matter is that matter that, in our professional judgment, was of most significance in our audit of the financial statements of the current period. This matter was addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

Based on our professional judgement there were no key audit matters identified that in our opinion were of such significance in our audit of the financial statements.

Other Information

The directors are responsible for the other information. The other information comprises the directors' report, chairman's statement, chief executive officer review, (include any Other Information in Documents Containing Audited Financial Statements). Our opinion on the financial statements does not cover this information, including the directors' report.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

With respect to the Directors' Report, we also considered whether the Directors' Report includes the disclosures required by Article 177 of the Maltese Companies Act (Cap. 386). Based on the work we have performed, in our opinion:

- the information given in the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the directors' report has been prepared in accordance with the Maltese Companies Act (Cap.386).

In addition, in light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we are required to report if we have identified material misstatements in the directors' report. We have nothing to report in this regard.

Responsibilities of the Directors

The directors are responsible for the preparation of the financial statements that give a true and fair view in accordance with EU IFRS's, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Tel: +356 213 45 760 www.mazars.com.mt

Independent auditor's report (continued)

To the Shareholders of Anchovy Studios plc

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Independent auditor's report (continued)

To the Shareholders of Anchovy Studios plc

Report on Other Legal and Regulatory Requirements

Report on the statement of compliance with the Principles of Good Corporate Governance

The Listing Rules issued by the Malta Listing Authority require the directors to prepare and include in their annual report a Corporate Governance Statement providing an explanation of the extent to which they have adopted the Code of Principles of Good Corporate Governance and the effective measures that they have taken to ensure compliance throughout the accounting period with those Principles.

The Listing Rules also require the auditor to include a report on the Corporate Governance Statement prepared by the directors. We read the Corporate Governance Statement and consider the implications for our report if we become aware of any apparent misstatements or material inconsistencies with the financial statements included in the annual report.

Our responsibilities do not extend to considering whether this statement is consistent with any other information included in the annual report.

We are not required to, and we do not, consider whether the board's statements on internal control included in the Corporate Governance Statement cover all risks and controls, or form an opinion on the effectiveness of the company's corporate governance procedures or its risk and control procedures.

In our opinion, the Corporate Governance Statement set out on pages 4 to 10 has been properly prepared in accordance with the requirements of the Listing Rules issued by the Malta Listing Authority.

Adequacy of explanations received and accounting records

Under the Maltese Companies Act (Cap. 386) we are required to report to you if, in our opinion:

- We have not received all the information and explanations we require for our audit.
- Adequate accounting records have not been kept, or that returns adequate for our audit have not been received from branches not visited by us.
- The financial statements are not in agreement with the accounting records and returns.

We have nothing to report to you in respect of these responsibilities.
