APS Bank plc and Nexi S.p.A., one of Europe's leading PayTech companies, are strengthening their longstanding business relationship through the rollout of the Cashere ATM network across Malta and Gozo. Building on the two's established collaboration, the initiative further extends Nexi's cross-border presence in Europe while broadening access to self-service banking locally.

The first Cashere-APS branded ATMs are now available, with more locations to be rolled out over the coming months. In addition to cash withdrawals, the network of modern machines offers contactless functionality, balance enquiries, PIN changes and banknote selection. APS Bank customers will continue to benefit from unlimited free cash withdrawals at the new Cashere-APS branded ATMs, just as they do at existing APS ATMs.

Headquartered in Milan, Italy, Nexi provides the infrastructure and services that enable digital payments for banks, merchants, businesses, public institutions, and consumers. Through its strategy of developing transaction and banking infrastructure layers as an outsourced managed service for banks, Nexi is enhancing the APS Bank ATM network experience by making convenient self-service banking more accessible.
