## Directors' Report Pursuant to Capital Markets Rules 5.68 For The Six Months Ended 30 June 2025

The directors present their report and the condensed interim consolidated financial statements of AST Group p.l.c (the "Company") in terms of Chapter 5 of the Capital Markets Rules issued by the Listing Authority – Malta Financial Services Authority and the Prevention of Financial Markets Abuse Act, 2005. The condensed interim consolidated financial statements have been prepared for the six months ended on 30 June 2025, in accordance with International Financial Reporting Standards as adopted for use in the EU for interim financial statements (International Accounting Standard 34, 'Interim Financial Reporting').

### **Principal Activities**

The principal objects of the Company relate to carrying on the business of a finance company and holding company in connection with the ownership, development, operating and financing of the business activities of the Group (which comprises the Company and its subsidiaries), whether in Malta or overseas.

The Group carries out end-to-end supply chain management, from sourcing raw materials for high nutrient animal feed to the delivery of animal feed to producers. For this reason, the Group is split into two core income streams: trading of animal feed products and chartering of vessels for own use or third parties. It was the Group's intention to vertically integrate the animal feed operations and expand into the logistics business, by transporting the Group's animal feed on vessels owned by the Group or time-chartered vessels from third parties. For this reason, the Group acquired M/V AST Malta in 2018 and in 2023 expanded its fleet by acquiring M/V AST Rising and M/V AST ECO.

As set out in Company Announcement AST79, in August 2025 the Group completed the sale of the marine vessel MV AST Malta, to a third party for a total consideration of US\$2,370,000. An amount equivalent to the original acquisition cost of the vessel, being US\$1,500,000, is held in a pledged bank account in favour of Onyx Trustees Limited until a replacement vessel or vessels are identified and acquired. The remaining balance of the proceeds will be allocated towards maintenance and upgrades of the Group's other vessels.

### **Performance Review**

During the period under review, the Group generated revenue of €6.9 million (FY2024: €8.5 million). The decrease in revenue was primarily due to lower sales of animal feed products but was compensated by chartering of vessels to third parties. As chartering of vessels generates higher gross profit margins, the Group generated a gross profit of €2.3 million during the first six months ending 30 June 2025 (FY2024: €0.6 million), representing a gross profit margin of 33.0% (2024: 7.0%).

Although administration costs and selling costs increased during the period under review to €816k (FY2024: €555k), this was compensated by higher other income of €159k (FY2024: €555k).

## Directors' Report Pursuant to Capital Markets Rules 5.68 For The Six Months Ended 30 June 2025

As a result, after depreciation, amortisation and finance costs, the Group generated a profit before tax of  $\in$ 0.7 million for the six months ending 30 June 2025 (FY 2024: loss before tax of  $\in$ 1.0 million).

On 6 August 2025, the MV AST Rising sustained damage to its rudder while on voyage from Rio de Janeiro, Brazil, to Luanda, Angola, carrying a cargo of steel pipes. The crew took all necessary measures to ensure the safety of the vessel, its cargo, and personnel on board. Repair works have already commenced. All costs associated with the necessary repairs, as well as any incidental expenses, are fully covered by the vessel's insurance policies. Based on current assessments the MV AST Rising is expected to return to its operations in the fourth quarter of 2025.

#### **Position Review**

The Group's asset based amounted to €14.7 million as at 30 June 2025 (2024: €14.9 million), consisting principally of property, plant and equipment, inventories and trade and other receivables. The Group's total liabilities amounted to €13.0 million at 30 June 2025 (2024: €13.8 million). The Group's main liabilities consist of €8,500,000 6.25% Secured Bonds 2033.

#### **Dividends And Reserves**

The accumulated loss of the Group at 30 June 2025 total €3.9 million (2024: €4.6 million). The Board of Directors does not recommend the distribution of an interim dividend.

#### **Principal Risks and Uncertainties Associated With The Group**

The Group's operations with respect to animal feed are concentrated in the Mediterranean region and as such it is highly susceptible to consumer demand which may have a negative impact on the Group's business. The Group's dependence on a small number of suppliers and customers poses a risk due to competitions within the industry. A fall in demand on animal feed could affect negatively on the Group's operations, earnings and financial position.

With respect to the shipping industry, this is subject to external risk factors, that may not be within the Group's control. Examples of external risk factors in the shipping industry include susceptibility to local and global competition, increase in fuel prices, changes in laws and regulations affecting directly the Group or increase in operating costs. The shipping industry is highly competitive and volatile in nature.

Management and the board of directors remain confident that the Group will remain operating as a going concern and will continue to honour liabilities as and when they fall due. The activities of the Group are expected to remain consistent for the foreseeable future.

The motor vessels are pledged in favour of the Security Trustee as guarantee in favour of bondholders until such time that these are repaid in accordance with the Prospectus. A first priority mortgage on all the vessels owned by the Group is in place in favour of the Security Trustee in line with the Prospectus.

The motor vessels were revalued by an independent valuer on 18 December 2024, on an open market existing use basis that reflects recent transactions for similar vessels.

As set out in Company Announcement AST79, in August 2025, the Group completed the sale of the marine vessel MV AST Malta, to a third party for a total consideration of US\$2,370,000. An amount equivalent to the original acquisition cost of the vessel, being US\$1,500,000, is held in a pledged bank account in favour of Onyx Trustees Limited until a replacement vessel or vessels are identified and acquired. The remaining balance of the proceeds will be allocated towards maintenance and upgrades of the Group's other vessels.
