Directors' Report pursuant to Listing Rule 5.75.2 for the period from 1 January 2021 to 30 June 2021

This Half-Yearly Report is being published in terms of Chapter 5 of the Listing Rules of the Listing Authority – Malta Financial Services Authority and the Prevention of Financial Markets Abuse Act, 2005. The Half-Yearly Report comprises the reviewed (not audited) condensed consolidated interim financial statements for the six months ended 30 June 2021 prepared in accordance with IAS 34, 'Interim Financial Reporting'. The condensed consolidated interim financial statements have been reviewed in accordance with the requirements of ISRE 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity'. The comparative statement of financial position has been extracted from the audited financial statements for the year ended 31 December 2020.

Principal activities

The principal activity of the Company is to hold assets for the Group and also acts as the financing arm of the Group.

The principal activities of the Group relate to the manufacture and business of stone, marble and granite as well as the manufacture of terrazzo and pre-cast elements. The Group owns and leases a number of commercial properties and is also involved in property development and resale.

Review and commentary performance

During the period under review, Group revenue amounted to €10.5 million, an increase of 5.1% over the same period last year. The Group registered an operating profit of €1.7 million (2020: €1.1 million). The main driver of this improved performance came from the manufacturing segment.

The Group registered a consolidated profit before tax of €728,058 for the six month period ended 30 June 2021 as compared to the consolidated profit before tax of €303,154 for the six month period ended 30 June 2020.

Outlook

The ongoing COVID-19 pandemic has continued to have a significant impact on the Maltese economy during the period under review. The measures taken from time to time by the Maltese Health Authorities have continued to impact segments of our operations, and more specifically property rental. The accelerated pace of the COVID-19 vaccination programme is expected to gradually mitigate the impact of the pandemic and may go some way to improve business and consumer confidence. However, we remain cautious as the extent of the lag effect of the pandemic is unknown and may impact the performance of the Group. We remain vigilant as the pandemic evolves and continue to adapt our strategy and put in place measures necessary to protect our people and our business.

Independent auditor's report

To the Board of Directors of Hal Mann Vella Group P.L.C.

Report on Review of Condensed Consolidated Interim Financial Information

Introduction

We have reviewed the accompanying condensed consolidated interim statement of financial position of Hal Mann Vella Group P.L.C. and its subsidiaries as at 30 June 2021, the related condensed consolidated interim statement of comprehensive income, statement of changes in equity and statement of cash flows for the six month period then ended, and the explanatory notes (the interim financial information). The directors are responsible for the preparation and fair presentation of these condensed consolidated interim financial statements in accordance with International Financial Reporting Standards (IFRSs) as adopted by the EU applicable to interim financial reporting (International Accounting Standard 34 "Interim Financial Reporting"). Our responsibility is to express a conclusion on these interim financial statements based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity'. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial statements are not prepared, in all material respects, in accordance with International Accounting Standard 34 'Interim Financial Reporting'.

Hal Mann Vella Group P.L.C.

Notes to the Interim Condensed Consolidated Financial Statements for the period from 1 January 2021 to 30 June 2021

1. General information

The interim condensed consolidated financial statements of Hal Mann Vella Group plc and its subsidiaries ("the Group") for the six months ended 30 June 2021 were authorized for issue in accordance with a resolution of the Board of Directors on 26 August 2021.

Hal Mann Vella Group plc ("the Company") is a public limited liability company incorporated in Malta, under the Companies Act, Cap. 386 of the Laws of Malta.

2. Principal accounting policies

2.1 Basis of preparation

The interim condensed consolidated financial statements for the six month-period ended 30 June 2021 have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union (EU) applicable to interim financial reporting (International Accounting Standard 34 'Interim Financial Reporting').

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statement as at 31 December 2020, which have been prepared in accordance with IFRS as adopted by the EU.

2.2 New standards, interpretations and amendments adopted by the Group

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2020, except for the adoption of new standards effective as of 1 January 2021. The Group has not early adopted any other standards, interpretation or amendment that has been issued but is not yet effective.

Several amendments and interpretations apply for the first time in 2021, but do not have an impact on the interim condensed consolidated financial statements of the Group.

Interest Rate Benchmark Reform – Phase 2: Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16

The amendments provide temporary reliefs which address the financial reporting effects when an interbank offered rate (IBOR) is replaced with an alternative nearly risk-free interest rate (RFR).

The amendments include the following practical expedients:

- A practical expedient to require contractual changes, or changes to cash flows that are directly required by the reform, to be treated as changes to a floating interest rate, equivalent to a movement in a market rate of interest
- Permit changes required by IBOR reform to be made to hedge designations and hedge documentation without the hedging relationship being discontinued
- Provide temporary relief to entities from having to meet the separately identifiable requirement when an RFR instrument is designated as a hedge of a risk component

These amendments had no impact on the interim condensed consolidated financial statements of the Group.

The Group intends to use the practical expedients in future periods if they become applicable.

Hal Mann Vella Group P.L.C.

Notes to the Interim Condensed Consolidated Financial Statements for the period from 1 January 2021 to 30 June 2021

3. Judgements in applying accounting policies and key sources of estimation uncertainty

In preparing condensed consolidated interim financial statements, the Board of Directors have made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at 31 December 2020.

4. Segment information

For management purposes, the Group is organised into business units based on its products and services and has two reportable segments, as follows:

Property Development and Letting This segment is engaged in the acquisition and development of residential and commercial properties for resale and/or letting.

Manufacturing, Products and General Contracting Services This segment includes the companies responsible for manufacturing and exports. This segment includes specialising in the manufacture of stone elements, arranging logistics, plant hire, deliveries, and supplies and subcontracting work. Also, coordination of orders for customers for products and services is done.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit or loss and is measured consistently with profit or loss in the consolidated financial statements.

Transfer prices between operating segments are on an arm's length basis in a manner similar to transactions with third parties.

Terms and conditions of transactions with related parties

The sales to and purchases from related parties are made on terms equivalent to those that prevail in arm's length transactions. Outstanding balances at the period-end are unsecured and interest free and settlement occurs in cash. There have been no guarantees provided or received for any related party receivables or payables. As at 30 June 2021, the Group has recorded provision for estimated credit losses on receivables relating to amounts owed by related parties amount to €4,632 (31 December 2020: €5,730). This assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates.

12. Fair values measurements

At 30 June 2021 and 31 December 2020, the carrying amounts of trade and other receivables, cash and cash equivalents and trade and other payables and current borrowings reflected in the financial statements are reasonable estimates of fair value in view of the nature of these instruments or the relatively short period of time between the origination of the instruments and their expected realisation. The fair values of loans and receivables and non-current borrowings are not materially different from their carrying amounts in the statement of financial position.

The fair value of non-current financial instruments for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments.

The Group used the following hierarchy for determining and disclosing the fair value:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities;

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly; and

Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.
