

# COMPANY ANNOUNCEMENT

This is an announcement of the company KA Finance P.L.C (the "Company"), a company incorporated under the laws of Malta, having company registration number C 91544 and registered address at Project Technik, Cannon Road, Qormi, QRM 9032, Malta.

Date: 16 December, 2022 Ref No: KAF36 Company Announcement relative to Rule 4.11.12 of the Prospects Rules.

The Company refers to the obligation which Prospects MTF Companies are subject to, in terms of Rule 4.11.03 and Rule 4.11.12 relating to explanations of material changes to published forecasts of any financial information. To this end, the Company is accordingly making this announcement to guide the market with regards to the forecasts it had issued for the year 2023 in the Company Admission Document ("CAD"), through the publication and dissemination of updated Financial Sustainability Forecasts (hereinafter referred to as "FSFs"), including applicable management assumptions. The below copy of the FSFs, as approved by the Board of Directors, is based on the following assumptions:

### **General Outlook**

Although the activity of the group (which comprises the Company and its parent KA Holdings Limited) is rapidly returning to normal following the impact of the COVID-19 pandemic, financial results inevitably continue to be affected by the delays that the pandemic has had on the execution of its medium-term business plan. The directors remained satisfied that the group's profitability and cash flow will revert to projected results in the near future.

# Revenue

The group is expected to register revenues of  $\notin 2.0M$  for the year ending  $31^{st}$  December 2023, a decrease of  $\notin 438K$  from what was forecasted in the CAD. As described above, the COVID-19 pandemic delayed the achievement of full occupancy at Centris II, which is expected to reach 92% by the end of 2022, and full occupancy during 2023. Projected revenues will also be impacted by the Swieqi property which will be rented out on long lets instead of short lets as previously forecasted in the Company Admission Document. Revenue from the Centris I property is projected to be in line with the figures projected in CAD. The Gzira property, which was planned to be transformed into a boutique hotel in the CAD, is instead being currently rented out on a long let.

# **Direct costs**

Direct costs are projected to amount to  $\notin 236$ K, a decrease of  $\notin 26$ K from the figure forecasted in the CAD. This is as a direct result of renting out in 2023 the Swieqi property on short lets as opposed to long term lets.

### Administrative costs

Administrative costs are projected to amount to  $\notin 136$ K, a decrease of  $\notin 243$ K from the figure forecasted in the CAD. Similar to Direct Costs, this is the result of renting out in 2023 the Swieqi property on short lets rather than long lets.

#### Net profit

Net profit is projected to amount to  $\notin 936$ K, a decrease of  $\notin 108$ K from the  $\notin 1.04$ M forecasted in the CAD. This decrease is mainly attributable to a lower revenue from Swieqi and Gzira properties and the fact that the vacant space in Centris II will be rented out during 2023. This income will not be reflected in full during the next financial year.

#### Assets, equity, and liabilities

Total assets are projected to amount to  $\notin$  30.25M while equity and total liabilities are projected to amount to  $\notin$ 16.68M and  $\notin$ 13.58M respectively.

#### Cashflow

It is projected that the company will close the year with a positive cash balance of  $\notin$ 424K,  $\notin$ 2.46M lower than that forecasted in the CAD.

Income statement	FSF 2023	CAD 2023	Variance
