Directors' Report pursuant to Listing Rule 5.75.2

For the Period 1 January 2022 to 30 June 2022

This report is published in terms of Chapter 5 of the Listing Rules of The Listing Authority, Malta Financial Services Authority and the Prevention of Financial Markets Abuse Act 2005.

The condensed consolidated interim financial statement figures have been extracted from the Group's unaudited accounts for the six months ended 30 June 2022 and for its comparative period in 2021 (unaudited). The comparative consolidated statement of financial position has been extracted from the audited financial statements as at 31 December 2021. These condensed consolidated interim financial statements have been prepared in accordance with accounting standards adopted for use in the EU for interim financial statements (EU adopted IAS 34 - Interim Financial Reporting). These condensed consolidated interim financial statements were approved by the Board of Directors on 26 August 2022. In terms of Listing Rule 5.75.5, the directors state that this half-yearly financial report has not been audited or reviewed by the Group's independent auditors.

Principal activities

The Group's principal activities, through its subsidiaries, consist of providing shore base logistics and engineering services to the offshore oil and gas industry and supply chain management for Oil Country Tubular Goods (OCTG) to support the onshore oil and gas industry. It also provides equipment, procurement, and specialised services to a wide range of customers, including national and international energy companies, drilling and mining companies, as well as product and equipment manufacturers and other heavy industry-related contractors across the globe, reaching the Mediterranean countries, Middle East, South America, South Africa and a number of emerging markets such as Mozambique, Uganda and Angola.

Directors' Report pursuant to Listing Rule 5.75.2 (continued)

For the Period 1 January 2022 to 30 June 2022

Reverse acquisition

On 25 June 2021, Medserv p.l.c. completed a share for share exchange with Regis Holdings Ltd (hereinafter 'Regis') that resulted in Regis controlling the Medserv plc group of companies. Following the transaction, the combined group changed its name to MedservRegis p.l.c. (hereinafter the 'Company'). From a legal and taxation perspective, the Company is considered the acquiring entity. However for accounting purposes the transaction has been accounted for as a reverse acquisition in the consolidated financial statements, where Regis is the accounting acquirer, and the Company is the legal acquirer. As a result, the prior year financial statements represented a continuation of Regis' financial statements except for the capital structure.

As a result of the reverse acquisition, the comparative information of the Group presented in these Condensed Interim Financial Statements are as follows:

- a) the Interim Condensed Consolidated Statement of Financial Position as at 31 December 2021 represents the consolidated financial position of the combined Medserv and Regis group of companies; whereas
- b) the Interim Condensed Consolidated Statement of Profit or Loss and Other Comprehensive Income includes the financial results of the continued operations of Regis group of companies for the period ended 30 June 2021.

Review of performance

The Group's reported turnover for the six-month period ended 30 June 2022 amounted to €26,075,032 (30 June 2021: €6,026,946). The Group's reported adjusted earnings before interest, tax, depreciation and amortisation (EBITDA) for the six-month period ended 30th June 2022 amounted to €4,766,074 (30 June 2021: negative €56,604). The adjusted EBITDA of €4,766,074 includes the operating losses amounting to €0.6 million incurred by the last remaining vessel, namely MV Regis Kaskazi, prior to its disposal during 2022.

After recognising depreciation amounting to €3,412,040 (30 June 2021: €155,888), amortisation of intangible assets of €1,028,186 (30 June 2021: €nil), and impairment loss on property, plant and equipment of €17,186 (30 June 2021: €168,711), the Group registered an operating profit amounting to €308,663 (30 June 2021: operating loss of €381,203).

After adding the net finance costs amounting to €917,143 (30 June 2021: net finance income of €1,267,091) and the share of profit of equity-accounted investees of €nil (30 June 2021: €29,101), the Group registered a loss before tax of €608,480 (30 June 2021: profit before tax of €914,989). Loss from continuing operations after accounting for taxation amounted to €664,827 (30 June 2021: profit from continuing operations of €849,907).

Reported in 'Other Comprehensive Income' are foreign currency translation differences arising from translating the financial results of the Company's subsidiaries to its reporting currency in Euro. This amounts to positive €1,809,863 (30 June 2021: negative €1,054,108). In addition, the net loss on hedge of net investment in a foreign operation amounts to negative €690,385 (30 June 2021: €nil). The net result amounts to positive €1,119,478 (30 June 2021: negative €1,041,250).

The Group's equity position of MedservRegis p.l.c. as at the financial reporting date stood at €63.2 million (2021: €62.8 million), representing an increase of €454,651 as a result of the positive total comprehensive income generated during the first six months of the year.

Directors' Report pursuant to Listing Rule 5.75.2 (continued)

For the Period 1 January 2022 to 30 June 2022

Outlook

The year started with the continuation of the Covid crisis and the subsequent restrictions and difficulties associated with this pandemic only eased off commencing at the end of the first quarter of the year. Ancillary to this the Group saw the continuation of the force majeure imposed by TotalEnergies in northern Mozambique which has severely impacted our Mozambique operations based in Pemba. Likewise and most unfortunately, Libya continues to see very low activity due to the unresolved political situation in this country which has caused further delays in announcing expected mega offshore energy projects. Lastly, the global economy has witnessed the unfortunate invasion of Ukraine by Russian forces which invasion has escalated into a far deeper crisis with Western countries imposing massive sanctions on the Russian Government, companies and individuals.

Despite the negative macro-economic and environmental forces there still lies opportunity for the Group to grow into the medium and long term future. The war between Russia and Ukraine has seen a spike in the oil and gas price globally, reaching heights last seen in 2013 and with the onset of winter in the northern hemisphere approaching there is certainly an expected upward trend for gas supplies to be sourced from other regions due to the sanctioning of the Russian supply.

Group operations in the Mediterranean basin which includes Libya, Malta, Cyprus and Egypt have apart from Libya/Malta been successful in supporting new drilling operations as well as securing extensions to contracts which were approaching the end of existing period.

The Malta operations have done a notable performance in securing non-oil and gas work with revenues from this commercial work outweighing the traditional oil and gas activity. The Group remains confident that offshore drilling or ancillary projects will resume in Libya by early next year resulting in a resurgence in activity at the Malta facility.

Following a number of drilling campaigns in Cyprus and Egypt earlier this year the Group is foreseeing further growth in the Eastern Mediterranean basin with a number of drilling projects being considered by various International Energy Companies (IECs). The Group is well positioned to secure further contracts, given its track record to date.

The Middle East business continues to be a significant contributor to the Group. Following record revenue in the first half of the year the Middle East Tubular Services (METS) sub-group is anticipated to continue to show growth particularly in the UAE and Iraq machine shop facilities. Incoming volumes of Oil Country Tubular Goods (OCTG) at the Group's facilities in Oman are significantly above the level achieved in previous years and it is anticipated that a record volume will be achieved by the end of 2022 with even higher volumes anticipated into 2023 and 2024.

Regrettably the major tender submitted to an IEC in Trinidad earlier in the year was not awarded and rather due to timing constraints, the client elected to extend their contract with the existing shore base contractor for a further period. This although disappointing has not detracted from the Group's resolve to seek a way into seeking further opportunity and long terms contracts in the region of Suriname, Guyana, and Trinidad & Tobago.

MedservRegis p.l.c.

Directors' Report pursuant to Listing Rule 5.75.2 (continued)

For the Period 1 January 2022 to 30 June 2022

Outlook (continued)

Operations in Mozambique and Uganda are expected to remain subdued for the rest of the year, however, Mozambique is seen as a country poised for growth considering the size of gas projects in the pipeline. This business unit has begun to show signs of improvement following the insurgent attacks last year. Uganda too, has slowly started to see the commencement of the development of the Tilenga Project and after a number of years of losses it is anticipated that an improvement in revenue and profitability will be achieved by year end and continue into 2023 and 2024.

The policy of Group consolidation and rationalisation which was initiated at the beginning of 2022 has begun to show results and management are committed to continue this strategy whilst not overlooking opportunities that will arise with improvement in the market and increase of the oil and gas prices being experienced. To this end the Group has submitted tenders for new drilling campaigns offshore Egypt, Cyprus and Morocco to IECs with awards expected by end of 2022.

The executive team is confident that it will meet the recently published forecast 2022 and remains committed to returning the business to a profit and to being in a position to continue driving revenue growth whilst remaining cost conscious.

Related party transactions

Transactions with each category of related parties and the balances outstanding at the end of the reporting periods are set out in note 13 to the condensed consolidated interim financial statements.

2 Basis of preparation

2.1 Statement of compliance

These interim financial statements as at and for the six-months ended 30 June 2022 have been prepared in accordance with IAS 34 *Interim Financial Reporting* as adopted by the EU and should be read in conjunction with the last annual consolidated financial statements of MedservRegis plc (formerly known as Medserv plc) and Regis Holdings Limited ("Regis") as at and for the year ended 31 December 2021 (together referred to as "last annual financial statements"). They do not include all of the information required for a complete set of financial statements prepared in accordance with International Financial Reporting Standards (IFRS). However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance since the last annual financial statements.

Given that the share for share exchange completed on 25 June 2021 has been accounted for as a reverse acquisition, the comparative information to these interim financial statements represents a continuation of Regis' financial statements with the exception of the capital structure. The amount recognised as equity instruments in the prior year interim financial statements represented the issued equity of the Company adjusted to reflect the equity issued by the Company on acquisition. The Condensed Consolidated Interim Statement of Financial Position as at 31 December 2021 represents the consolidation of the formerly Medserv Group of companies and the acquired Regis Group of Companies. The Condensed Consolidated Interim Statements of Profit or Loss and Other Comprehensive Income and Cash Flows for the six-month period ended 30 June 2021 did not include the performance results of the formerly Medserv Group of companies in accordance with IFRS 3 *Business Combinations*. Instead, the Condensed Consolidated Interim Statements of Profit or Loss and Other Comprehensive Income and Cash Flows consisted of the results of Regis Group of Companies for the full six-month period ended 30 June 2021.

Notes to the Condensed Consolidated Interim Financial Statements

For the Period 1 January 2022 to 30 June 2022

2 Basis of preparation (continued)

2.2 Going concern

As required by Listing Rule 5.62, upon due consideration of the Group's performance and statement of financial position, capital adequacy and solvency, the directors confirm the Group's ability to continue operating as a going concern for the foreseeable future.

3 Use of judgements and estimates

In preparing these interim financial statements, management has made judgements and estimates that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those described in the last annual financial statements.

4 Significant accounting policies

The accounting policies applied in these interim financial statements are the same as those applied in the Group's last annual financial statements. Certain comparatives have been reclassified to conform with the current year's presentation.

A number of new standards are effective from 1 January 2022, but they do not have a material effect on the Group's financial statements.

5 Standards issued but not yet effective

A number of new standards and amendments to standards are effective for annual periods beginning after 1 January 2022 and earlier application is permitted. However, the Group has not early adopted any of the forthcoming new or amended standards in preparing these interim financial statements.

MedservRegis p.l.c.

6 Operating segments

6.1 The Group has five reportable operating segments, as described below, which represent the Group's strategic divisions.

These divisions offer different products and services and are managed separately because they require different resources and marketing strategies. For each of the strategic divisions, the Board of Directors, which is the chief operating decision maker, reviews internal management reports on a monthly basis.

The following summary describes the operations in each of the Group's reportable segments

Integrated logistics support services	Includes the provision of comprehensive logistical support services to the offshore oil and gas industry from the Group's bases in Malta, Cyprus, Egypt, Suriname (South America) and Africa.
Oil country tubular goods	Includes the provision of an integrated approach to OCTG handling, inspection, repairs and other ancillary services based in three Middle East locations, namely U.A.E., Southern Iraq and Sultanate of Oman.
Trading activity	Involves the trading and exportation of locally produced goods and operates principally in South Africa. This activity was discontinued following the reverse acquisition.
Photovoltaic farm	Involves the generation of electricity which is sold into the national grid for a twenty-year period at a price secured under the tariff scheme regulated by subsidiary legislation S.L. 423.46 in Malta.
Property segment (discontinued)	Involves income generated from the investment properties.

Information regarding the results of each reportable segment is included below.

7 Earnings per share

Basic earnings per share

The calculation of basic earnings per share is based on the profit or loss attributable to ordinary shareholders of the Company as shown in the Condensed Consolidated Interim Statement of Profit or Loss and Other Comprehensive Income, divided by the weighted-average number of ordinary shares outstanding.

There were no dilutive potential ordinary shares during the current and comparative year.

8 Adjusted earnings before interest, tax, depreciation and amortisation (adjusted EBITDA)

The Directors have presented the performance measure adjusted EBITDA because they monitor this performance measure at a consolidated level and they believe this measure is relevant to an understanding of the Group's financial performance. Adjusted EBITDA is calculated by adjusting profit from continuing operations to exclude the impact of taxation, net finance income (costs), depreciation, amortisation and impairment losses related to goodwill, intangible assets, property, plant and equipment.

Adjusted EBITDA is not a defined performance measure in IFRS Standards. The Group's definition of adjusted EBITDA may not be comparable with similarly titled performance measures and disclosures by other entities.

10 Loans receivable from related companies

On 25 June 2021, Regis Holdings Limited signed a loan agreement with Drill Stem Testing International Limited ('DSTI') whereby the latter assumed the obligation to settle outstanding loans, totalling USD 6.265 million, that were issued by Regis Holdings Limited to its subsidiaries and which entities have been carved out from the combined MedservRegis group as a result of the business combination. This transaction was made for the purpose of ensuring that the formerly Medserv p.l.c. group is adequately protected from any liability resulting from the reorganisation of Regis Group. At 30 June 2022, the carrying amount of the loan stood at € 2,622,837 (equivalent to USD 2,737,519) (2021: €6,007,615, equivalent to USD 6,434,753) and was secured by a pledge over all the shares held by DSTI in Worx Developments Limited, a carved out entity. This loan has been paid in full in July 2022. In addition, the Group has an outstanding loan due by a related company, TVE International Proprietary Limited, with a carrying amount of €513,767 (30 June 2021: €nil). These loans are subject to an interest rate based on the United States Federal Funds Rate plus 3% and repayable by 31 December 2023.

The Group holds a portfolio of equity shares, bonds and other securities, which is managed by its custodian. These investments represent marketable and listed instruments which are highly liquid, and the Group uses the market close out rates for the fair valuation of these instruments at each reporting date. The investments are classified under Level 1, as per the classification of IFRS 13 *Fair Value Measurements*.

12 Contingencies

There were no major changes in the contingencies of the Group from those disclosed in the consolidated financial statements of the Group for the year ended 31 December 2021.
