Directors' Report pursuant to Listing Rule 9.44k.2

For the Period 1 January 2011 to 30 June 2011

This report is published in terms of Chapters 8 and 9 of the Listing Rules of The Listing Authority, Malta Financial Services Authority and the Prevention of Financial Markets Abuse Act 2005.

The condensed consolidated interim financial statement figures have been extracted from the Group's unaudited accounts for the six months ended 30 June 2011 and its comparative period in 2010. The comparative consolidated statement of financial position has been extracted from the audited financial statements as at 31 December 2010. These condensed consolidated interim financial statements have been prepared in accordance with accounting standards adopted for use in the EU for interim financial statements (EU adopted IAS 34 - Interim Financial Reporting). These condensed consolidated interim financial statements were approved by the Board of Directors on 30 August 2011. In terms of Listing Rule 9.44k.5, the directors state that this half-yearly financial report has not been audited or reviewed by the Group's independent auditors.

Principal activities

The principal activities of the Group, consist of providing services and support to the offshore oil and gas industry operating mainly in the Mediterranean basin with a focus on the industry's activities in North Africa.

Review of performance and outlook

The Group's turnover for the six-month period ended 30 June 2011 amounted to €3,914,590 compared to €7,201,536 registered in the comparative period to 30 June 2010.

The Group registered a profit before tax of $\leq 141,137$ compared to $\leq 147,753$ achieved in the six month period to 30 June 2010. After providing for income tax, the net profit for the period to 30 June 2011 amounted to $\leq 125,697$ when compared to $\leq 196,112$ for the six months period ended on 30 June 2010.

The Group's results for the first half of the year are lower than forecast with turnover substantially lower than that of the comparative six-month period. However profit margins on some of the Group's activities were higher than expected due to the uncertainty in Libya which when added to the introduction of strict cost controls and the revised accounting estimates of the useful life of plant and equipment, resulted in the Group approaching the level of profits before tax achieved in the comparative six-month period.

Both the Malta base and the Libya base in Misurata have been affected by the continuing instability in Libya. On the one hand, the Malta base has benefitted by being seen as a reliable and safe haven for the relocation of oil field equipment and for facilitating the repatriation of staff employed by oil companies. The Malta base was responsible for the evacuating of most of the workers situated on the oil platforms offshore Libya. On the other hand the Misurata base has not operated fully for some months. Having said that there is a substantial amount of equipment owned by oil companies on the base which remains undamaged and for which storage is being charged.

Directors' Report pursuant to Listing Rule 9.44k.2

For the Period 1 January 2011 to 30 June 2011

The Directors are kept informed about the status of the Group's assets on the Misurata base on a regular basis and to date it appears that whilst there has been damage this is not serious and most of which is of a nature which can be repaired. There are no Maltese staff in Misurata at present, but Libyan employees report for duty when possible and they have taken steps to protect the base and the company's and client's property as best they can.

The Group remains ready to restart operations in Misurata as soon as it is deemed safe to do so and when clients return. As regards existing offshore oil and gas platforms, it is considered that these will be the first operations to restart and that these will be in the main served from the Malta base. The Group also looks forward to the restarting of the planned programme for drilling production wells in the offshore Bouri field when hostilities cease, and to the commencement of existing planned programmes of international oil companies for which Medserv already has signed contracts. In the meantime the Group will continue with its cost reduction programme in order to safeguard the company's financial position and to ensure it is able to react speedily to any positive developments in Libya.

Negotiations on shareholders and management agreements with the Sicilian partners TEA Shipping S.R.L. have been successfully concluded. A number of business opportunities both for offshore mainland Italy and also for Sicily have been identified and a business plan has been formulated.

Whilst the timing of the eventual ceasing of hostilities in Libya remains uncertain the Group remains well placed to benefit from the restarting of operations in the Libyan oil industry.

Related party transactions

The Group had related party transactions with its directors and other related parties.

Transactions with each category of related parties and the balances outstanding at the end of the reporting periods are set out in note 7 to the condensed consolidated financial statements.

Dividends

No interim dividends are being recommended.

Notes to the Condensed Consolidated Financial Statements

For the Period 1 January 2011 to 30 June 2011

1 Reporting company

Medserv p.l.c. (the "Company") is a public liability company domiciled and incorporated in Malta. The condensed consolidated financial statements for the six-months ended 30 June 2011 comprise the Company and its subsidiaries (together referred to as the 'Group'). Subsidiaries consist of Medserv International p.l.c., Medserv Operations Limited, Medserv Italy Limited, Medserv Libya Limited and Medserv Misurata FZC.

2 Significant accounting policies

The accounting policies applied by the Group in these condensed consolidated interim financial statements are the same as those applied by the Group in its consolidated financial statements as at and for the year ended 31 December 2010.

3 Significant accounting estimates

The preparation of interim consolidated financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates. In preparing these condensed interim consolidated financial statements, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the audited financial statements for the year ended 31 December 2010 except for the estimated useful live of plant and equipment which were revised during the current period (see note 6).

6 Property, plant and equipment

During the six months ended 30 June 2011, the Group acquired assets with a cost of €116,169 (six months ended 30 June 2010: €345,979).

During this reporting period, the estimated useful live of plant and equipment of the Group was changed from 4 years to 8 years to better reflect the useful life of the plant and equipment. As a result of this, the depreciation expense during the six months ended 30 June 2011 has decreased. The effect of these changes on depreciation expense, recognised in cost of sales, in current and future periods is as follows:

	6mths to	6mths to	6mths to	6mths to
