## Directors' Report pursuant to Listing Rule 9.44.2

For the Period 1 January 2007 to 30 June 2007

This Half-Yearly Report is being published in terms of Chapters 8 and 9 of the Listing Rules of the Listing Authority – Malta Financial Services Authority and the Prevention of Financial Markets Abuse Act 2005. The condensed consolidated financial statements included in this report have been extracted from Maltacom p.l.c.'s unaudited consolidated financial statements for the six months ended 30 June 2007 prepared in accordance with accounting standards adopted for use in the EU for interim financial statements (EU adopted IAS 34, *Interim Financial Reporting*). In terms of Listing Rule 9.44.5, this Half-Yearly Report has not been audited or reviewed by the Group's independent auditors.

### Review of Financial Performance

- Profit before tax amounted to Lm5.4 million for the period under review. Although profit is Lm0.9 million below that registered in the same period last year, results include an amount of Lm0.7 million representing charges incurred as a result of the ongoing restructuring of the Group's fixed line operations. Furthermore, during the period the Group incurred various one-time charges aimed at improving efficiency and maximising Group synergies that will deliver reduced costs in future periods.
- Group turnover amounted to Lm27.1 million, an increase of 2% over the comparable period in 2006. Turnover is characterised by the continued decline in traditional fixed-line voice services which is however being mitigated by revenues from broadband, mobile and new business which now also includes TV.
- The Group continues to enjoy a significant and large client base. The client base of the Group's newly acquired TV operations stood at almost 16,000 at period-end representing a growth in excess of 90% over December. Furthermore, broadband client base increased by 5.2% whilst that of mobile increased by 2.8%. These positive results compensate for a net decline of 3,000 fixed-line connections.
- Traditional fixed-line voice services continued with their downward trend, which is however mitigated by growth in broadband services and a general reduction in costs that includes a reduction in headcount through voluntary retirement schemes. Mobile operations have continued to grow and today represent a major source of profitability and cash flow to the Group.
- Net finance income during the period amounted to Lm359,000, an increase of over 112% over the corresponding period.
- The Group continues to generate significant free cash flow from its operations, which allows it to enjoy a healthy liquidity position.

### Commentary on Performance

During the period under review, Maltacom p.l.c. ('the Company') carried out a rebranding exercise and implemented changes in its structures. Two subsidiaries, namely DataStream Limited and Monitoring Services Limited, were merged into the Company, thereby increasing the effectiveness of the convergence programme sanctioned by the Board and improving the efficiencies of the operation.

Our mobile telephony operations have continued to register growth in the customer base and in revenues resulting in a consistent improvement in the contribution to our consolidated results. During the period under review this subsidiary launched 3G services on a nationwide basis and will be enhancing coverage during the third quarter of the year. Take-up of this new service by clients is expected to impact positively on the results of the Group during the next reporting periods.

## **Directors' Report pursuant to Listing Rule 9.44.2**

**For the Period 1 January 2007 to 30 June 2007**

The relentless onset of new regulations has continued throughout the reporting period. Following the opening up to (unregulated) competition in the fixed-line business in 2006, this year the Group's mobile business unit started to absorb the negative impact of new regulations by the EU on roaming tariffs. Eventually, during 2008, the Group will also have to adjust its expectations in view of new entrants into the mobile market. These emerging realities, together with other threats looming in the form of new disruptive technologies in the mobile market, may dampen the continued bullish growth in this activity.

To mitigate the negative impact of these disruptive technologies, the Group will continue to lobby decision-makers at both the local and EU levels to take due regard of the specificities of the local market environment. We continue to believe that our position merits a positive consideration.

During the period under review the Group finalized the acquisition of Multiplus Limited, a digital terrestrial TV operator, thereby making the Group Malta's only 'Quadruple Play' provider. The Board has mandated the deployment of the necessary human and financial resources to ensure that this new acquisition rapidly assumes a leading position in this particular market segment.

To ensure a continuation of the Group's positive results, the Board has mandated new efficiencies into the Group's operations to ensure reductions in our costs, most notably but not solely, further improvements in our head count levels through voluntary retirement schemes. We shall be persevering in these and similar initiatives.

Consequently, we are reasonably optimistic that despite the adversities encountered during the period under review, and undoubtedly during successive periods, the Group shall continue to generate free cash flow and to report a robust balance sheet as it is doing at the end of this reporting period.

### **Related Party Transactions**

Due to a change in the majority shareholder of the Group, last year's results included related party transactions with the Government of Malta and its related entities until 19 May 2006. In the period under review, the Group acquired services amounting to Lm115,360 from entities controlled by Dubai Holdings LLC, the ultimate parent company.

### **Dividends**

The Board of Directors does not propose to pay an interim dividend for the six months ended 30 June 2007.

Approved by the Board on 30 August 2007 and signed on its behalf by:

Mr Sonny Portelli  
Chairman

Mr Michael Warrington  
Director

## Notes to the Condensed Consolidated Interim Financial Statements

For the Period 1 January 2007 to 30 June 2007

---

### 1 Reporting entity

Maltacom p.l.c. (“the Company”) was incorporated in Malta under the Companies Act on 31 December 1997, and holds a licence for the provision of fixed line telecommunications services in Malta. The subsidiaries provide communications and ancillary services.

The condensed consolidated interim financial statements of the Group as at 30 June 2007 and for the six months then ended comprise the Company and its subsidiaries (together referred to as the “Group”) and the Group’s interest in an associate.

The consolidated financial statements of the Group as at and for the year ended 31 December 2006 are available upon request from the Company’s registered office at Spencer Hill, Marsa.

### 2 Statement of compliance

The condensed consolidated interim financial statements have been prepared in accordance with accounting standards adopted for use in the EU for interim financial statements (EU adopted IAS 34 *Interim Financial Reporting*).

There are no incompatibilities between the provisions of the Companies Act, 1995 and the requirements of EU Regulations in relation to the preparation of the interim financial statements.

The interim financial statements do not include all of the information required for full annual financial statements, and should be read in conjunction with the consolidated financial statements of the Group for the year ended 31 December 2006.

The condensed consolidated interim financial statements were approved by the Board of Directors on 30 August 2007.

### 3 Significant accounting policies

The accounting policies applied by the Group in these condensed consolidated interim financial statements are the same as those applied by the Group in its consolidated financial statements as at and for the year ended 31 December 2006.

### 4 Estimates

The preparation of interim consolidated financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these condensed interim consolidated financial statements, the significant judgements made by management in applying the Group’s accounting policies and the key sources of estimation uncertainty were the same as those that applied to the audited financial statements for the year ended 31 December 2006.

### 14 Segmental information (continued)

#### 14.1 Analysis by business segment

During the current period, management reorganised its business into three major business lines, namely 'Fixed', 'Mobile' and 'Other' and defined these business lines as follows:

*Fixed Communication Services (Fixed)* comprise the Group's fixed-line telephony services, digital television services, sale of broadband, Internet services and other business communication solutions.

*Mobile Communication Services (Mobile)* comprise the Group's mobile telephony services.

*Other Services (Other)* comprise the Group's call centre operation.

Further to the above reorganisation, the Group's internal reporting to the Board of Directors and senior executives was analysed according to the above segments. The comparative information has been restated to reflect the financial effect to the above change.
