Interim directors' report

The directors present their report and the condensed interim financial statements in terms of Chapter 5 of the Capital Markets Rules issued by the Malta Financial Services Authority and the Prevention of Financial Markets Abuse Act, 2005. The condensed financial statements have been extracted from Qawra Palace p.l.c. unaudited financial information as at 30 September 2023 and the six-month period then ended, prepared in accordance with International Financial Reporting Standards as adopted for use in the EU for interim financial statements (International Accounting Standard 34, 'Interim Financial Reporting'). This half-yearly report has not been audited by the company's independent auditors.

Principal activities

Qawra Palace p.I.c. (the "Company") is a property holding company whose principal objects are as set out in clause four (4) of its Memorandum of Association – namely, to carry on the business of a property holding company and to construct, maintain, alter, equip or convert any buildings or amenities as may be required in connection with the establishment of a hotel and/or tourist or leisure centre. The Company owns the Qawra Palace Hotel located on the Qawra promenade.

Given that the Company is not a trading company, it is economically dependent on the income it derives from Mallard Co. Ltd. (C 4758), a related company ("Mallard"), the entity entrusted with the management and operation of the Qawra Palace Hotel. The Company on-lent monies to Mallard from the proceeds of the Bond Issue (as described below and detailed in the Prospectus).

Review of the business

The Company

In March 2023, the Company raised €25 million from a public bond issue; specifically, the issue by the Company of €25 million worth of 5.25% secured bonds 2033 (the "Bond Issue") with a nominal value of €100 per bond and issued at par (the "Bonds") in terms of a prospectus dated 20 December 2022 (the "Prospectus"). The Bonds were admitted to listing on the Official List of the Malta Stock Exchange with effect from 8 February 2023.

The proceeds of the Bond Issue were utilised in line with the Prospectus dated 20 December 2022, with \in 16.4 million repaying existing bank loans, \in 6.7 million to be passed on by way of loan to Mallard to upgrade the existing hotel and develop new amenities and catering outlets within the complex and the remaining portion of \in 1.9 million to be allocated for general corporate funding purposes.

The company's total assets as at 30 September 2023 stood at €86.4 million (31 March 2023: €85.1 million). The company reported a profit before tax of €670,828 for the period ended 30 September 2023 (2022: loss €268,995). This was attributable to rental and interest that started being charged to its fellow subsidiary company during the period under review.

Qawra Palace p.l.c. is dependent on the business prospects of the operating company (Mallard Co. Ltd.) and, therefore, the trend information relating to the operation of the hotel has a material effect on its financial position.

The hotel opened its doors for business on 1 June 2023. Up till 30 September 2023 the hotel generated revenues of \in 7.7 million compared to \in 5 million in the corresponding period last year, an increase of 54%. Total revenues in the first half of 2023 are 10% higher than pre-pandemic levels registered in the same period for 2019. These positive results are mainly attributable to strong occupancy levels, which despite opening in June 2023, these averaged to 93.85%, coupled with increased room rates (31% over 2019 rates).

Management of the operating company is confident that these positive results obtained so far should be further improved upon in the coming months. In fact, revenue generated for October and November exceeded expectations.

Principal risks and uncertainties for the remaining six months of the financial year

The Qawra Palace Hotel is still undergoing refurbishment and seeking the completion of certain amenities extension project which is being carried out by the related company. The timely completion of the associated works is dependent on various external factors and third-party contractors. This is subject to a number of specific risks including delays, cost overruns and the inability to source adequate resources to complete the project.

Apart from the above, the Company is subject to various other risks such as market, economic, credit and liquidity risks. The directors are confident that the Company has the right framework and the appropriate policies and procedures in place to mitigate the effects that the aforementioned risks might have on the business.

The Company has prepared projections for the year ending 31 March 2024, based on actual results for the six months ended 30 September 2023 and forecasts thereafter. As reported earlier, for the first six months of the Company's financial year ended 30 September 2023, the Company achieved a profit before tax of €0.67 million. Management is hopeful that this positive trend will continue during the rest of the financial year. The Company is not expecting material changes to depreciation, amortisation and net finance costs.

These projections are available in the Financial Analysis Summary report issued in September 2023, which is available on the Company's website https://www.qawrapalaceplc.com/.

In view of the projections outlined above, the directors are of the opinion that the Issuer will have the necessary funds to finance the bond interest falling due in February 2024 and going forward.

The directors concur with the going concern assumption for preparation of these interim financial statements and do not envisage any material uncertainty in this regard.

Results and dividends

The directors do not recommend the payment of an interim dividend.

Notes to the Financial Statements

1. Summary of significant accounting policies

The financial statements have been prepared under the historical cost convention (except for investment property which is measured using the fair value model) and in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union (EU) and the requirements of the Companies Act (Cap. 386) enacted in Malta.

The accounting policies adopted in the preparation of the 2023 interim Financial Statements are the same as those adopted in the preparation of the audited financial statements for the year ended 31 March 2023.

2. Investment property

The investment property is a hotel and is being operated by a fellow subsidiary and is carried at fair value. The rent charged by the company to the related company for the period ending 30 September 2023 amounts to €1,200,000 exclusive of indirect taxes. The Company has not incurred direct operating expenses arising from its investment property.

	66,121,827	66,121,827

The carrying amount of property, plant and equipment relates to the cost (less accumulated depreciation) of hotel assets incurred by the lessee (a related company) and recognised in its accounts. Since this factor is being taken into consideration in determining the future rental charges to the lessee and since the architect's valuation considered the state of the hotel including all property, plant and equipment held as at 31 March 2023, respectively, the fair value of the investment property has been adjusted as explained above. Fair valuation of the property is carried out on an annual basis at the end of the financial year.
