### Directors' Report pursuant to Listing Rule 9.44.2

#### For the Six Months Ended 30 June 2008

This report is published in terms of Chapters 8 and 9 of the Listing Rules as prescribed by the Listing Authority in accordance with the provisions of the Financial Markets Act, 1990.

The condensed financial statements have been extracted from the Company's unaudited accounts for the six months ended 30 June 2008 and its comparative period in 2007. The comparative balance sheet has been extracted from the audited financial statements as at 31 December 2007. The condensed interim financial statements have been prepared in accordance with accounting standards adopted for use in the EU for interim financial statements (EU adopted IAS 34 Interim Financial Reporting). In terms of Listing Rule 9.44k.5, the directors state that the half-yearly financial report has not been audited or reviewed by the Company's independent auditors.

#### Principal activities

The Company is principally engaged in the development, installation, implementation and marketing of computer software for financial institutions.

#### Review of performance

The Company has generated total revenue of Euro 5,330,722 during the six months ended 30 June 2008, which represents a 92% increase when compared to the same period last year. The increase is characterised by the following factors:

- During the first six months of the year, the Company concluded three Comprehensive Package Agreements. These agreements provide clients with licences, maintenance and a given amount of services against a pre-determined price, and thus ensure a constant stream of revenue to the Company.
- The Company has also successfully concluded the sale of two new licences. This is in line with the Company's targets to expand its client base, and consistent with the Company's plans to further penetrate untapped markets.

The Company's sales efforts for licences have materialised earlier than envisaged in the first part of the year. It is not anticipated that the performance of the second half of the year can match that of the reporting period to the same extent.

During the period, the Company achieved a profit after taxation of Euro 2,352,613, representing a profit margin of 44% (six months ended 30 June 2007: 36%). The improvement in the profit margin is directly attributable to a favourable revenue mix in terms of licences, maintenance and services yielding a higher margin over the comparable period in 2007.

The Directors of the Company are confident that the profit for the full year ending 31 December 2008 will meet its projections.

### Directors' Report pursuant to Listing Rule 9.44.2

#### For the Six Months Ended 30 June 2008

#### **Combined offering**

On 9 June 2008, the Company opened applications for a Combined Offering of 12,500,000 ordinary shares, which shares were all taken up by 11 June 2008. Following the Combined Offering, the Company's total share capital of 37,500,000 ordinary shares were listed on the Malta Stock Exchange, were trading commenced on 27 June 2008.

The proceeds generated from the issue of shares will be employed to fund further the organic growth of the Company by enhancing its marketing capabilities and its research and development function, as well as to expand its operations by setting up representative offices closer to client sites in selected regions abroad, and the establishment of the RS2 Training Academy.

#### Related party transactions

Consistent with what was reported in the financial statements for the year ended 31 December 2007, the Company had related party transactions with its parent company, other subsidiaries of the parent company and other entities in which the directors of the company, or their immediate relatives, have an ownership interest.

Transactions with each category of related parties and the balances outstanding at the end of the reporting periods are set out in note 9 of the Notes to the Condensed Interim Financial Statements.

On 28<sup>th</sup> April 2008, the Company declared an interim dividend of Euro 1,200,000. The Board of Directors does not propose to pay further interim dividends for the six months ended 30 June 2008.
