

RS2 p.l.c.
COMPANY ANNOUNCEMENT

The following is a company announcement issued by RS2 p.l.c. (the “Company”) pursuant to the Capital Market Rules as issued by the Malta Financial Services Authority in accordance with the provisions of the Financial Markets Act (Chapter 345 of the Laws of Malta) as they may be amended from time to time.

Quote

The Company wishes to announce that its subsidiary RS2 Smart Processing has concluded three deals for the provision of processing services within its Processing Solutions business line.

- For our client in Latin America, a market leader in payment services in the country, we will be orchestrating the entire acquiring platform, including integrations with local issuers to support in-country bilateral agreements between the client and the respective issuers. The solution will also cover connectivity with domestic payment schemes and the acquiring of international schemes — including Visa, Mastercard, American Express, Diners Club, and Discover. Our comprehensive platform will deliver end-to-end services encompassing authorisation and clearing, merchant billing and settlement, and statementing, complemented by a full suite of service portals such as the Merchant Portal and the Client Agent Web Interface.

This deal marks the first client engagement through one of the partnerships we have recently announced and paves the way for future deals. The Group is currently in the process of concluding another two deals.

- For our client in Europe, RS2 is providing a fully-fledged issuing card management system, enabling them to serve their international client portfolio. The services include comprehensive card management, authorisations, and clearing.
- For our client in the Europe, a payments provider, we will be providing an acquiring platform covering both the EU and UK markets. RS2 will deliver the architecture for authorisations and clearing, including real-time calculation of interchange and scheme fees.

The last two clients are a result of direct sales efforts by the RS2 team.

These contracts are another important step in the execution of the Group's strategy focusing on the growth of its Processing Solutions business, particularly in Latin America. Revenue from these deals will take the form of one-time implementation fees that will be recognised throughout the implementation term which has already commenced, followed by regular transaction processing revenue once the client is live and in production. The duration of the implementation term varies from three months to twelve months depending on the size of the projects, while the duration of each contract varies from five to seven years and further strengthens the Group's recurrent revenue base.
