Information to the Market – Global COVID-19 pandemic

The Company makes reference to the ongoing developments in relation to the global COVID-19 pandemic which the Company's Board of Directors and management have been following closely.

The Company believes that it is still too early to comment in detail on the evolving situation and the economic consequences of the COVID-19 pandemic on the markets in which it operates. Although the current situation is likely to impact the Company's revenues, the Company is closely monitoring trends in its core market segments in order to better understand the implications of such trends and to deal with them accordingly as more information becomes available.

The Company wishes to reassure the market that:

- a) In line with good market practice the Company has contingency planning measures in place to manage risks associated with disruptive events such as COVID-19;
- b) The Company has taken measures to ensure the health and safety of its employees (which include staff working remotely) and the broader community;
- c) The Company's capital and operational expenditure are being reviewed to re-align resources to the evolving market situation; and
- d) Even in the current circumstances, the Company fully expects to meet its payment obligations to its bondholders.

The Board of Directors will keep the situation under constant review and will issue further announcements as and when required.
